TELEGRAPHIC NEWS BRIEFLY CHRONICLED

Net Income Deficit of C.N.R. for 1932 \$61,006,919

(By Canadian Press in Calgary Herald.)

Ottawa, March 24.—The net income deficit of the whole Canadian National Railways system for 1932 was \$61,006,919, according to the annual report of the acting president, S. J. Hungerford, tabled in the House of Commons on Friday by Hon. R. J. Manion, minister of railways and canals.

Canadian Wins \$123,000 On Grand National

(By Canadian Press Cable in Calgary Herald.)

Toronto, March 24.—Clyde Horn, an oil company employee at Dartmouth, Nova Scotia, was the only Canadian holding a ticket on Kellsboro Jack, winner of the Grand National steeplechase.

He gets \$123,000 out of the Irish hospital sweepstake fund.

Return of Monarchy to Germany is Forecast

(By Associated Press in Calgary Herald.)

Berlin, March 23.—That the monarchy would return to Germany "as surely as day follows night" was asserted by speakers at an enthusiastic "Kaiser Trug" gathering Wednesday night, commemorating the birthday of Wilhelm I.

Among those present were former Prince Eitel and many of the Imperial officers.

Speakers pledged themselves "not to cease their labors until the Imperial standard floated over the Kaiser's Palace in Berlin."

Sales Tax Hits Long List of Foodstuffs

(By Canadian Press in Calgary Herald.)

Ottawa, March 22.—The Rhodes' Budget added a long list of foodstuffs to the list of commodities taxable at 6 per cent under the sales tax. The following were free before today: Oatmeal, rolled oats, cornmeal, rolled wheat, when in packages exceeding 5 lbs in weight; buckwheat meal, peameal, pearl barley, split peas, barley meal, pop barley, molasses, corn syrup, cleaned rice, macaroni and vermicelli, sago and tapioca.

The following were taxable at three per cent until today, now six per cent: Moist mince meal, yeast, canned vegetables, pastes, hash and similar products composed of vegetables, meat and fish or both; fruit pulp, jellies, jams, marmalades, preserves, fruit butters, canned fruit.

Cost More than \$6,000,000

(By Canadian Press Cable in Calgary Herald.)

Ottawa, March 24.—Cost of the agricultural stabilization fund to the federal treasury will be more than \$6,000,000, but less than \$10,000,000, dependent on the volume of business in the commodities effected and the level of the pound sterling on currency exchanges, said Prime Minister R. B. Bennett on Thursday night.

Fed. Gov't to Re-consider Pensions Cut

(By Canadian Press in Calgary Herald.)

Ottawa, March 24.—Further consideration will be given by the government to the proposal which contemplates suspending payment of war pension to pensioners now in the civil service.

Within the next ten days the government will meet spokesmen of the Associated Veterans and review the situation. Meanwhile, no effort will be made to put into effect the proposed suspension.

Extend School Act Exemption List

(Special Dispatch to Calgary Herald.)

Edmonton, March 24.—Extension of exemptions under the School Assessment Act, 1931, is provided for in a bill which is now before the legislature. One section of the bill increases the amount of land exempt from assessment, when held for the use of any hospital which receives a government grant, from 5 to 25 acres.

Property assessable under the Electric Power Taxation Act and the Pipe Lines Taxation Act, which has not yet been introduced, also will be exempt from school taxes.

German State Makes Move to Expel Jews

(By Associated Press in Calgary Herald.)

Berlin, March 24.—Adolf Hitler's legalized four-year term as dictator began today with one western German state taking action which it was thought in some quarters may lead to the expulsion of all Eastern Jews within its borders.

Legislative bodies of both the German Reich and its greatest unit, Prussia, have been indefinitely suspended. The signature of President Paul von Hindenburg to the decrees which Hitler may desire to enact is no longer necessary as a result of the Reichstag's action yesterday in granting absolute power to the chancellor.

Will Eliminate Alberta School Fairs

(Special Dispatch in Calgary Herald.)

Edmonton, March 27.—Agricultural services throughout the province will be seriously curtailed this year as the result of drastic cuts made by the government in the estimates of this department. School fairs will be eliminated as will also appointment of district supervisors for weed control, work, and any supervision of this kind must be arranged by the municipalities. Staffs of all the agricultural schools, with the exception of the principal and farm manager, have been released, and it is expected that only the Olds school will be operated next winter. District agriculturists have been notified that they will be given three months' holiday without pay during the year.

What are you writing?
A letter to my wife.
Why do you write so slowly?
Because she can't read very fast.

Cattle Men May Benefit By \$150,000

(Special Dispatch in the Calgary Herald.)

Edmonton, March 23.—Based upon present prices, the decision of the Dominion government to "peg" the value of the British pound sterling at \$4.60 will put \$150,000 more into the pockets of Alberta cattle exporters if they ship 15,000 head this year, according to estimates made by provincial government officials.

Officials figure that there will be an increased return to the producer of at least one cent a pound, which means \$10 to \$12 more for cattle weighing 1,000 to 1,200 pounds.

Calgary Labor Condemns Foodstuffs Taxation

From the Calgary Herald:

Protest against taxation of foodstuffs, especially in view of present economic conditions, was registered at the regular monthly meeting of the Canadian Labor Party Wednesday night.

The opinion was expressed that increased levies on sugar, corn syrup and other important items in diets would mean a \$2 per annum increase in the per capita living expenses.

A resolution of protest was drawn up and forwarded to the Calgary members at Ottawa.

Fears Japanese Drive Peiping-Tientsin Area

(By Associated Press in Calgary Herald.)

Peiping, China, March 27.—Possibility of a Japanese advance into the Peiping-Tientsin international treaty area still threatens in the opinion of Minister of War Ho Ying Ching, despite assurances from Tokio that the Japanese have no intention of proceeding south of the Great Wall of China.

Want Butter Included In Standardization Plan

(Special Dispatch in Calgary Herald.)

Edmonton, March 17.—Protests over butter not being included in the stabilization fund scheme announced by the Dominion government, under which the British pound sterling will be pegged at \$4.60 may be made by Alberta legislators.

Japan Out of League

(By Associated Press in Calgary Herald.)

Geneva, Switzerland, March 27.—Japan's formal notification of withdrawal from the League of Nations was communicated Monday to the League secretariat.

A Great Opportunity.

In articles written for this column a studious effort is made to avoid subjects of a partisan political character, because we are not concerned with the fate of political parties, much less with the effect which the adoption or rejection of any given policy may have upon the welfare of the country and people as a whole. For this reason, and in order to avoid even an appearance of partisanship, discussion of certain subjects which undoubtedly are in the public interest, but which, unfortunately, have become involved in party controversy, has not been undertaken. The aim of this column has been, and will continue to be, to present information, logically and fairly interpreted, and leave it to the reader to reach his or her own conclusions.

One subject which has, therefore, been more or less taboo in this column is Customs Tariffs, their effect on prices, on the trade and commerce of the country, on both internal and external development, and international relationships in general. That taboo on the wide subject of Tariffs still remains because political parties remain sharply divided on the question, but there is one particular aspect of the Tariff and Trade question which, within recent weeks, has been lifted out of the realm of partisan controversy so far as Canada is concerned. Reference is to the subject of reciprocity with the United States.

All political parties in Canada are now definitely committed to the policy of entering into favorable trade relations with our great neighbor to the south, and most happily, the present Administration in the United States is also favorable. It would appear, therefore, unless purely selfish interests in both countries are allowed to unduly influence the probable course of events, a new chapter in the trade relations of these two good neighbors will shortly be written.

After all, it will not in reality be the writing of a new chapter, but the re-opening after a long interval of the book at an old chapter, and a revision of that chapter in the light of present day developments and needs. Reciprocity did prevail many years ago between Canada and the United States, and it was admittedly advantageous to both countries. Why, then, was it abrogated? The Encyclopedia Britannica gives the reason in these words:

"A heritage of differences and difficulties had been left to be settled between England, Canada and the American Union as the result of the Civil War. In retaliation for the supposed sympathy of Canadians with the South in the struggle, the victorious North took steps to abrogate in 1866 the reciprocity treaty of 1854, which had conferred such great advantages on both countries."

Whatever the differences and difficulties and ill-feelings and suspicions which were engendered by the American Civil War, they have long since passed away. They no longer stand as a stumbling block to the development of the freest and largest possible exchange of trade between these two countries, each of which is the natural market of the other.

Now with the situation in Canada being that any Government in power at Ottawa, whether Conservative, Liberal, C.C.F., or a coalition of any two or all three parties, would be committed by their party declarations to the negotiation of a reciprocal trade agreement, and with the Roosevelt Administration, supported by an overwhelming majority in both Houses of Congress, equally favorable, the time would appear to be most opportune for the cultivation of the strongest possible public sentiment in favor of the early realization of such a policy on a comprehensive scale, and covering the widest possible range of commodities.

According to Henry Chalmers, of Washington, chief of the Foreign Tariff Division of the United States Department of Commerce, "the Government is working 'full tilt' on a reciprocal tariff programme." Even before the Hoover Administration retired from office the Government tariff experts had been put to work on a reciprocal tariff programme, said Mr. Chalmers, in order to help "the Roosevelt Administration get a flying start."

Mr. Roosevelt's Secretary of Commerce, Daniel C. Roper, openly advocates the United States tariff policy "of common sense and common decency to other nations." He says: "For too many years we have, as a nation, been fervent in our protestations of a desire to foster our international trade, while at the same time we have actually been doing our best to place in its path almost insurmountable obstacles. There are honest differences of opinion as to tariff policies, but I believe that an overwhelming majority of the American people have unmistakably shown that they are tired of a policy that has antagonized every nation in the world." Buying as well as selling must occur in foreign commerce, he said, adding that no nation could successfully market its own goods if it persisted in refusing to admit a reasonable volume of the products of other countries.

Let it be repeated, therefore, that now—with partisan differences in Canada having been thrown into the discard on this question—is the time for the people of this country to unite in the development of a great sentiment in favor of a far-reaching reciprocal trade agreement with the United States, and the presentation of a united front in order that our great natural market to the south may be re-opened in which to sell our primary products, and freedom in buying across the line be accorded to our people in the case of those many things which the United States can supply naturally, quickly from the standpoint of service, and more economically than any other country.

World's Poultry Congress

The first World's Poultry Congress was held in the Netherlands in 1921; the second in Spain in 1924; the third in Canada in 1927, and the fourth in England, 1930. The fifth will be held in Rome, in September, to which Canada will send a fine contingent of Canadian birds through the Dominion Department of Agriculture.

"I want you to grow up strong, every inch a man," said the king to his son, "so that you'll make a good ruler."

Nervous—Could Not Sleep Tired Out All The Time

Mrs. George Scribner, Nanawigewauk, N.B., writes:—"I was so very nervous I could not sleep at night, and felt tired out all the time. A neighbor told me about Milburn's Heart Nerve Pills, and as she was using them at the time she gave me some to try. I found they were doing me so much good I procured two boxes and they proved of wonderful help to me."

Sweden's "Garden Cities"

Stockholm is Fringed With Communal Homes Since War

Factory-made cottages that can be put up in a day have become popular in Sweden and Stockholm is fringed with little "garden cities." The workman who tires of apartment life can order a new home on Monday and help his wife put up the curtains and lay the rugs a few days later.

The "garden cities" are part of a communal building program, designed to provide low rents for wage earners, in which the city government has in the last ten years extended indirect financial aid to nearly 100,000 persons, almost one-fifth of the population of the city.

The program was instituted after the World War when there was a shortage of homes as a result of industrial development. The government bought up large country estates, and these are parceled out on long-term leases.

The person who decides to build a cottage can have 80 per cent. of the cost financed by the government. The interest charges on this money pay for road development, gas, water and sewer mains. For a modern cottage, with three rooms, kitchen and full basement, the dweller pays about 950 kroner or \$250 a year.

Property Of The King

Many Important Thoroughfares In London Belong To Crown

Choice properties of London and splendid agricultural estates are listed among the holdings of the King's Lands Commission, who administer the estates once owned by the Kings of England personally. In London the crown owns virtually all the modern shopping centre of the West End, Regent Street, and the broad boulevard called the Mall which leads to Buckingham Palace. Much adjacent property, too, belongs to the crown, besides many other important thoroughfares, including the Strand and Oxford Street. The agricultural estates in England amount to more than 100,000 acres. Revenue amounts to nearly \$9,200,000 annually, from which the King's Privy Purse, amounting to about \$2,350,000 is taken.

"Buy British" Campaign Should Be Modified

Originator Of Movement Thinks It Has Done Far Enough

"Buy British," the campaign that was expected to bring about a revival of British manufacturing by turning purchasers away from foreign goods to home products, is now doubted by one of its most powerful advocates.

Sir Edward Crowe, Controller of the Department of Overseas Trade, said in an address: "If this probably the 'Buy British' campaign has gone far enough. We want to buy American goods and we want America to buy British goods." His remarks were made to a gathering of American and British business men.

Sir Edward confessed he had been an originator of the movement he now would modify. It was set on foot by the Empire Marketing Board, which he is a member.

Like Buckingham Palace

King and Queen Fond Of Quiet Spacious Gardens

While some of the younger members of the royal family dislike Buckingham Palace, the King and Queen are very fond of it. They love the quiet, spacious gardens where they can wander and read and work. Queen Alexandra was most reluctant to leave the Palace and return to Marlborough House after the death of King Edward. Prince George left the house, not because he disliked it, but because he wanted to join the Prince of Wales, his favorite brother.

Man Won Competition

The All-England lace knitting competition recently held at Leighton Buzzard, was won by a man. Moreover, the man is 83. Mr. David Rush, who by trade is a master printer, possesses all the requirements for this delicate craft—keen eyes, steady hands, and a fine perception of art—and so equipt was the lace he submitted that the work of the numerous young lady competitors was put in the shade.

Wife (with magazine)—"This writer says that an artistic cook can express emotion in the dishes she prepares."

Husband—"Has Bridget suffered any bereavement lately? The toast she serves is always in deep mourning."

TAKE ENO'S FRUIT SALT

Belief May Be True

People Walking In Sleep Should Not Be Awakened

The danger of awakening a sleep-walker is brought anew into discussion in a story written by Marjorie Ellwood, told to her by a pioneer uncle. It all happened more than 80 years ago, near St. Thomas, Western Ontario is dotted with old burying grounds. In some cases the bodies have been removed to public cemeteries, but at nearly every old home-land a plot of ground covered by bushes or trees is left severely alone.

In these plots are the sunken graves of the pioneers, guarded by moldering slabs of marble, neglected, forgotten and sometimes discolored.

Seven sons and one daughter lived in a certain farmhouse, the daughter idolized her mother and when the latter died, and was buried on the farm, the daughter was heart-broken. Soon it was whispered about that there was a ghost haunting the settlement. Different ones who had been out late nights reported they had seen a figure draped in white, gliding along the highway.

Followed one night, a doctor in the company, it was discovered that the grieving daughter was a sleep-walker, sobbing at her mother's grave. The brothers were warned to guard her, but not to awaken her. In the end one brother grew tired of what seemed to him foolishness, on a rainy night. He believed she was not asleep at all, but only acting, so when he followed her in the rain, he called out very crossly to her and woke the poor girl up. She was terrified and fled. Her brother, now frightened, followed her as fast as he could, but lost her in the woods. The settlers organized a posse and searched for her. She was found unconscious later in the day, where she had fallen from exhaustion, miles from home. She was taken home in a raging fever, and died soon after.

Fewer Using Family Crest

Heavy Taxation In England Appears To Be Chief Cause

The family crest, used on carriages, table silver, cigarette cases and rings, is vanishing from London. In 1923 nearly 7,500 licenses were issued there. In 1930, the last year for which figures are available, that total had shrunk by about a third, or some 2,600 and the L.C.C. authorities expect a further decline in the current year.

Heavy taxation of the people entitled to armorial bearings appears to be the chief cause. Many of these old families have become extinct, and not a few of the last representatives have emigrated. Perhaps changed habits, and a different attitude towards life, have influenced people who can still afford the guinea license, and a generation hence armorial bearings may be used chiefly by colleges, public schools, and clubs and other corporations.—Edinburgh Scotsman.

The Poor Taxpayers

Members of the United States Senate during 1932 were supplied with several thousand dollars worth of free aspirin tablets. Fifty the poor taxpayers. They have to foot the bill for somebody else's headache.

Miniature furniture for a doll's house made from porcupine quills, beads and pins, by a Singapore queen, have been presented by the Queen of England to the Victoria and Albert Museum in London.

WEAK WOMEN

Take Lydia E. Pinkham's Vegetable Compound

Have you ever felt that you were too weak to do anything... that you did not have the strength to do your work? Women who are weak and run-down should take a tonic such as Lydia E. Pinkham's Vegetable Compound. Headaches and backaches that are the result of a tired, run-down condition often yield to this marvelous medicine. 98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today... and watch the results.

More Fruits Canned But Fewer Vegetables

Ontario Leads All Other Provinces In Both Lines

The pack of fruits in Canada increased substantially in 1932, but there was a marked decline in the pack of vegetables. Imports of both canned fruits and canned vegetables dropped in that year, but exports of both advanced. Ontario led other provinces in the supply of both canned fruit and canned vegetables. Quebec is the only other province for which separate information is published, and this indicates that canning activity in Quebec is devoted much more largely to vegetables than to fruits.

The output of canned fruits of all kinds in the Dominion in 1932 was 1,272,334 cases, compared with 784,833 cases in 1931. Of canned vegetables and soups the output last year was 5,411,625 cases, against 7,248,381 cases in 1931. It is estimated by the Dominion Bureau of Statistics, from a study of the returns received, that the figures given include over 95 per cent. of the total production of canned fruits and vegetables in Canada. A new feature of the report just published is that for the first time it contains information as to the weight of the pack as well as of the number of cases packed.

Pears led other varieties in the pack of fruits, both in the number of cases and in the weight of the pack. The number of cases, of pears reported was 371,675 with a weight of 15,138,276 pounds. Peaches came second in number of cases, but apples in weight.

Tomatoes held first place in the pack of vegetables, with soups second and peas third. This order is based on cases, weights placing beans third, though they ranked much lower in the number of cases.

Though imports of canned fruits and vegetables showed a marked decline, increase in the exports of these commodities was large. Imports of canned vegetables in 1932 totaled 3,081,024 pounds, compared with 3,424,603 pounds in 1931. Canned fruits imported last year were 11,523,885 pounds, against 11,526,224 pounds in the previous year.

Japan's New Tanks

Are Product Of Arsenal At Tokio And Osaka

The Japanese Tank Corps and Machine Gun Corps which are taking a prominent part in the advance into Jehol are of recent formation.

The constitution of the Tank Corps—medium and wheeled tanks are employed—is the result of special experiments made on the terrain of both Japan and Southern Manchuria. The tanks are the product of the Tokio and Osaka arsenals.

The Field Artillery is of the Krupp pattern, and the equivalent of the British old 13 pounder type, but great use is being made also of mountain gun batteries, which are all fully mechanized.

The Japanese infantry is armed with the Murata rifle (which is considered to be one of the strongest and most serviceable weapons in military use) and with a new type of Hotchkiss quick-firer.

Single Men For Air Force

Australian Government Prefers Them For Several Reasons

The Federal Government of Australia wants its air force personnel composed of young, unmarried men and the reasons are psychological and commercial.

It is pointed out that the experience has been that single men are likely to accept the hazards of aviation with less misgiving than men who are under the responsibility of supporting wife and family. For that reason, particularly, it is believed the single men display more nerve and are likely to make a better record where desperate risks must be accepted.

The other consideration is that dependents of married men have claims for compensation in the case of death or injury of the married men. Single men, however, are not such as to justify extra outlay.

Canada's Mineral Production "Canada's mining industry today depressed as it is by world conditions, still remains one of the brightest spots in our industrial life," stated Dr. Charles Camsell, Deputy Minister of Mines, in his address before the Canadian Ceramic Society in convention at Ottawa recently. He stated that the value of Canadian mineral production in 1932 was over \$180,000,000, it provided employment for over 65,000 workmen, with a total pay roll of over \$90,000,000.

VICKS VapoRub

Wheat Export Prospects

Canada Expected To Greatly Improve Her Position During Coming Year

Canada will in all probability greatly improve her wheat export position in 1932-33, as compared with the previous year, the monthly review of the wheat situation, issued by the department of trade and commerce, says. Scarcity of wheat in Russia and partial failure of the Danube crop are given as grounds for this prediction.

In the present crop year to date, Russian and Danubian shipments have amounted to only 19,000,000 bushels, with the prospect that no more than an additional 5,000,000 bushels will be shipped to the end of July, 1933. This would require of the non-European wheat-producing countries an export of about 640,000,000 bushels for the whole crop year, or about the same as in the preceding year.

The report estimates the new Australian crop at 200,000,000 bushels, with a surplus of 150,000,000 bushels for current export. Of this, 101,000,000 bushels has already been exported.

Argentina's estimate is 256,000,000 bushels, leaving 126,000,000 bushels for current export. Of that a total of 57,000,000 bushels has still to be exported.

War Buildings Being Made Into Aerodrome

Were Erected At Southampton For Assembling U.S. Planes

The great collection of corrugated iron and brick known as Atlantic park, which the traveller in England beholds just before the train reaches Southampton, is to be sold to the corporation as a municipal aerodrome.

The buildings were put up during the war to serve as an assembly place for United States aeroplanes which were landed in parts at Southampton. Some time after peace was declared the Canadian Pacific, and other companies interested in the North Atlantic trade, made a joint purchase of the property and used it for a considerable time for the temporary accommodation of migrants to Canada and the United States. Since migration ceased the buildings have been more or less derelict.

All-Water Freight Service

Regular monthly all-water freight service between Toronto, Hamilton, St. Catharines, Montreal and Vancouver and British Columbia ports via the Panama Canal will be started next month by a new Canadian steamship company formed for the purpose.

Would Shorten Voyage

Sir Alan Cobham's plan for shortening North Atlantic passages by means of combined air and steamship services, has been laid before the United Kingdom and Canadian governments, and presented to the Irish Free State high commissioner's London office.

Historians have found that a toy model of Stevenson's first engine, the Rocket, was made in England in 1829 and presented to Goethe, the famous German poet.

One Of the Contributory Causes Of the Present Crisis is That People Do Not Love the Land

Few thinkers lay the cause of the present crisis on any one thing; and although there is some disagreement in emphasis, most people include the following as the major reasons of the world's travail—in the realm of politics, the war debts, excessive governmental expenditure, international commercial paralysis due to high tariff barriers; in the realm of economics, over capitalization, over concentration of spending power, over production; and in the realm of sociology, machines, individual extravagance.

There is not now, and perhaps there never will be, complete harmony over the order of importance of these causes. We even wonder how pertinent is their application to this continent. With the exception of the war debts and the tariff situation, the causes of the present "depression" (we use the word guardedly) as listed above are to a large degree localized. That is to say, they originate in North America and their influence is felt within its confines. This realization is challenging, for it forces a deeper probing of the causes of the existing economic and social turmoil.

Perhaps an astute investigator would not for long miss the profoundly disturbing psychological basis of the present conditions. North Americans are rootless peoples. As a racial group, they are not endeared to the land. It is true that no single industry is as numerically great as that which derives its living from the soil, and that therefore the charge of rootlessness seems to be entirely unwarranted, but the tragic emphasis is that these people do not love the land. Rather, they wrest their livelihood from it; they take and take and take from the land, and they hate that which they loot.

The broad implication is that this is perhaps it is too shortly settled—since its soil is not loved. And dotting its wide reaches is a multitude of clucking hens, the Main Streets, with their restless resentful broods. Distorted instincts have made these towns unlovely and unlovable. The roots of most of their peoples have not penetrated the cement streets to the good earth below; humanity and the soil have not met.

This condition has held for several decades now. Youth, brought up on the farm, years for the city, and is swallowed up in its clanking machinery. And so the landed classes lack continuity. There has been a mere idle rocking of forces in the shift from country to town. Yet now the continent seems to be paying a twice-extracted retribution for its superficiality.

Man should not merely conquer the land, he should also win it. And that is where North America has so far failed. The looted land, by creating a distorted, resentful, warring psychology in the hearts of its looters, is wreaking a subtle vengeance that may yet be more terrible than anyone can conceive.—Winnipeg Free Press.

An Envious Position

Britain Has Confidence Of People Impervious To Panic

Walter Lippman, writing in New York Herald-Tribune says: "Why is it that Britain is comparatively better placed at the moment than so many other nations? Is it because her fundamental difficulties are smaller? Not at all. The fundamental difficulties of Britain are real ones. But what Britain has had is the confidence of a disciplined people, of a people politically competent that they are impervious to panic. In the past few months the American people have gradually had it brought home to them that the ordinary happy-go-lucky methods of each for himself, each Senator, each faction, each state, each section, each privileged group for itself, may be all very well in easy times, but in the midst of a crisis they are as impossible as in time of war."

Professor Einstein announces that up to now he has been unsuccessful in reconciling the Quantum theory with the Relativity theory. All of us will therefore have to be content with perfectly understanding each theory separately, as we now do.

The British food control is watching closely the effect on retail prices of present and future restrictions of meat imports.

Certified Seed Potatoes

Official Tags Constitute Guarantee To The Public

Canadian certified seed potatoes are known in many countries of the world, but, nevertheless, many people have a hazy idea of what is implied by the word "Certified." There need be no doubt as to the word's true significance for the Dominion Department of Agriculture has defined certification as a means of recording seed stock that is of good type, from vigorous plants, and, as far as practical under advanced conditions of farming, relatively free from serious diseases. When potatoes have been inspected in the field and after harvest by an authorized officer of the Dominion Department of Agriculture, and have been found vigorous and to conform to the standards set of freedom from serious diseases and of purity of variety, they may be certified. Official tags are issued for such seed stocks exclusively and these tags constitute the guarantee that Canadian certified seed potatoes are being dealt with.

(By Ruth Rogers)

A SMART MODEL WITH CERTAIN VERSATILITY REGARDING MATERIALS

It's unbelievably simple to fashion. The scarf neckline is easy to handle, yet new and attractive in effect. The bodice is cut with raglan shoulders. All you've to do is to join the sleeves to the bodice, following the perforations for same.

The skirt has length-giving panels at the front.

As for materials for this charming model, it only remains for what occasion it is desired.

For street, it is lovely in navy blue crinkly crepe silk with white crepe silk collar.

Very effective and cool for spring and later wear is to make it with short sleeves of a crepe silk print with plain toning crepe trim.

It's sporty with short sleeves of grey rabbit's hair woolen with yellow crepe silk scarf collar.

Style No. 575 is designed for sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Size 16 requires 3 1/2 yards 36-inch, with 1/2 yard 36-inch contrasting. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

"Hello, Doc, old kid, I didn't know you were deaf."—Passing Show, London.

British Admiral Dead

Sir Martyn Jerram Led Second Battle Squadron At Jutland

The leader of the second battle squadron at Jutland and one of the most prominent naval figures of the present era is dead in the person of Admiral Sir Martyn Jerram, 74 years old.

His decorations for service and valor were from several countries including one he gained early in his career which he always prized—the Royal Humane Society's medal for life-saving.

Sir Martyn headed the committee investigating the lower-deck grievances at the close of the war and his pay revision suggestions were adopted.

The Banks Of Scotland

No Failures For Fifty-Five Years Constitute Record

A letter in the Detroit News says the word British includes Scotland geographically, but in many functions they are different and independent of each other, such as Scotch law and Scotch banking.

While England boasts some 12 years without a bank failure, it does not seem to be generally known that "the true homeland of real banking," Scotland, has not had a bank failure since the City of Glasgow Bank failed in 1875, 55 years ago.

This should interest the American public who are crying for safer banks to keep their money in.

Keeping the Well-Away

A modest, but well-known poet found himself sitting next to a famous yet plain-speaking judge at a recent function in London.

In response to a few "feelers" regarding his business, the literary man confessed he had "been known to have a few poems published."

"And can a living be made writing poetry nowadays?" asked the judge.

"I at least manage to keep the wolf from the door," was the reply.

"Ah, I see! Read your poems to it, I suppose."

Boxed Apples Popular

Current statistics of imports of apples into the United Kingdom from the United States and Canada show a decrease, compared with the previous season, in the total receipts of barrel-packed apples, but a large increase in receipts of box-packed fruit.

"ROYAL SCOT" READY FOR LONG TRIP

Canada and the United States are going to see the "Royal Scot" this year when the famous train will tour the chief cities of the Dominion and the United States, following the Chicago World's Fair. The train will be complete even coaches and baggage cars and it will be the first trans-Atlantic visit of a complete British train. Here we see the "Royal Scot" leaving London to be overhauled for the trip.

Figures Are Interesting

Last Census Shows More Widows Than Widowers In Canada

Canada has more widows than widowers. At the 1931 census, the Dominion Bureau of Statistics reports, it was discovered there were 288,641 women who had lost their husbands and only 148,954 men who had lost their wives.

There were 3,179,444 single males and 2,771,968 single females; 2,053, 240 married males and 1,937,950 married females.

There were 8,411 divorced persons in Canada at the census of 1931, of whom 4,649 were men and 3,762 women. The divorced husbands formed .08 per cent. of the male population and the divorced wives .07 per cent. of the female population.

Divorced husbands in 1921 formed .08 per cent. of the male population, exactly the same as in 1931, but divorced wives in 1921 formed .09 of the female population, so that proportion to population there were fewer divorced wives in 1931.

Hawaii's Sugar Industry

Brings In Revenue Of Over Fifty Million Dollars Annually

Despite the prevailing low price of sugar, Hawaii's sugar industry is contributing more than \$50,000,000 annually to the financial welfare of the Territory.

In 1932 the sugar plantations gave employment to 48,000 persons, paid them \$24,500,000 in wages and paid more than \$35,000,000 in taxes and for purchase of supplies.

Through employment it is estimated that 104,000 people in Hawaii are dependent on sugar plantations for their livelihood. This is nearly one-third of the population.

Once Was Enough

The informality of the Prince of Wales was amusingly illustrated at a brilliant function at the Spanish Embassy in honor of Vice-President Julio Roca of Argentina. An attractive Spanish dancer dropped her comb. The Prince picked it up and returned it with a gallant bow. A few minutes later the dancer dropped two combs and a flower near the Prince. The guests roared, but the Prince refused to budge.

A gold recovery machine has been developed by a group of mining men in Menlo Park, Calif., that breaks ore into fine dust with 12 hammers that strike 600 blows a second.

Planning To Establish A Well-Founded Town Worthy Of Western Canada's Sea Port

There will be no "bubble" boom for the Port of Churchill; nothing that will gladden temporarily with optimistic opportunities only to crack from the lack of constructive settlement.

Prepared to throw open the town-site to public occupation this spring, Manitoba Government officials, administrators of the infant port, just entering its second actual year, are planning to prevent any undesired rush to Churchill. They want to establish a well-founded town worthy of Western Canada's outlet to the sea.

Meanwhile, directors of the town and port are optimistic. People in many parts of the world are interested in the future of the rugged little settlement across the river from the scattered pile of rock that once was historic Churchill. Hundreds of replies have been received to circulars sent out by the Department announcing when the townsite would be open for settlement.

Numerous applications for permission to establish various business enterprises have been received by R. W. Gyles, director of lands, who has charge of development work. Many have requested further information regarding business and shipping possibilities before deciding to make applications.

If all applications were granted by the Department and construction were to begin at the spring opening, single row would form a remarkable sight at the rock-bound mouth of Churchill River.

There would be a business district capable of catering to the citizenry of a small city. In applications submitted permission is sought to build 22 hotels, 32 cafes, 35 stores, 24 warehouses, 36 offices, 30 public buildings (churches, Government offices, banks and theatres) and 20 shops (laundry, dry-cleaning, etc.); also 176 general enquiries regarding possibility of residential development.

Some applications, Mr. Gyles said, came from England, many from the United States.

If the port proves its worth, in the opinion of the director, there will be no difficulty in leasing space in the town, which has been surveyed and given into districts to provide for an ultimate population of from 5,000 to 6,000 persons. Present development, however, provides for population of only from 600 to 1,000.

This population would be great enough, Mr. Gyles believes, to fit their plan for "slow and sure" development. It is going to be a "long, slow" task, he concedes, but he is confident of its future. People and firms who come to the port or establish business agencies are aware of the length of time it will require to give the new site a fair test.

The government wants the town development founded on a basis as sturdy as the rocky townsite itself. Though restrictions on passenger and freight traffic has been lifted, officials will still watch closely the increasing population. No "overnight" businesses are wanted, and directors have notified all interested parties that leases on all properties here will be for 50 years, with possible revision in rental every five years.

The picturesque site, dominated by the towering white grain elevator, mile-long of the port, is divided into well planned avenues and squares. There are 21 streets, each named after some historical character such as Hudson, Selkirk, Raddison, Grossett, La Verandrye and Franklin, with from 20 to 50 lots on each. Rental of these will range from \$25 to \$100 annually.

Already there exists a possibility of sufficient industries to build up the town population. Warehouses, shipping agencies and even an oil refinery and a rendering plant are rumored, but to avoid arousing any false hopes officials are reticent to discuss what may not materialize.

With opening of navigation in Hudson's Bay the port will burst into activity. The big elevator is jammed to capacity with 2,500,000 bushels of Western Canadian wheat, which inspectors have just reported in excellent condition. The far northern winter, they said, had no ill effect on the grain, stored there last fall before winter called a temporary halt to transportation over the Hudson's Bay Railway.

Movement of grain should start again instantly the elevator is cleared and officials expect this summer will find a shipping fleet regularly carrying grain from Churchill to United Kingdom and other Euro-

pean countries. And in the interim a campaign is being waged among Western Canadian concerns in support of the movement to make importations through Churchill as vessels will not be obliged to travel to the northern port in ballast.

Grow Wheat In Africa

France Is Experimenting With Soil In French North African Colonies

Experiments in wheat growing in North Africa, with the aim of producing "hard" wheat and so enable France to cut down her imports from the American continent, will be financed under the 300,000 francs credit recently authorized by the Chamber of Deputies to aid agriculture. The United Press learned from a reliable source.

Even when France produces domestically enough wheat for her needs, she requires to import hard wheats from the United States, Canada and the Argentine to mix with the softer French varieties in milling. This was strikingly demonstrated during 1932. Although the native crop totaled 315,000,000 bushels last season—10,000,000 bushels over her needs—the imports of hard wheats attained approximately 50,000,000 bushels.

Agricultural experts have reported favorably on the soil of the French North African colonies as being eminently suitable for experiments in raising better quality cereals. Every year, larger areas are being cultivated in Algeria, Morocco and Tunisia, which shipped during 1932 a record crop of 250,000,000 bushels across the Mediterranean to the metropolis.

Reviving World Trade

Radical Change In Regard To Tariffs Only Possible Way

If there is to be an international economic system at all, and if world trade is to revive, there must be a much freer exchange of goods generally than exists at present. Unless the Economic Conference is able to achieve this, neither the gold standard nor any other international standard, which endeavors to fix the exchange rates between different countries can be permanently maintained. In other words, before we attempt to co-operate once more in setting up an international monetary system, we must make it a condition not merely that the war debts are reduced to a harmless proportion, but that there is a radical change in the present situation as regards tariffs and trade restrictions.—Sir Walter Layton in London News-Chronicle.

Use Canadian Wheat

Heavy Shipments Have Been Going Forward To United Kingdom

Canada continues to find a large market for wheat in the United Kingdom, according to the monthly review of the wheat situation by the Dominion Bureau of Statistics. During the seven months from August to February, the United Kingdom imported 112,000,000 bushels of wheat. Of this amount Canada supplied about 16,000,000 bushels or 59 per cent. These figures indicate that during the present crop year British mills have been using an exceptionally high percentage of Canadian wheat.

Minister Endorses Puzzles

The jigsaw puzzle is a blessing, believes Rev. A. Lloyd Smith, D.D., of Dominion-Douglas United Church, Montreal, because it is helping to keep families together following a time when the home was merely an empty building beside the garage. It is also another factor in promoting the simpler life, the minister told the American Women's Club here.

Should Be Fully Ripe

Bananas, just like any fruit, if eaten raw should be fully ripe. All suggestion of green at the tips should have disappeared and the skin be a deep yellow slightly speckled with brown. In this condition, the flavor is deliciously mellow and the fruit easily digestible. For cooking purposes, the slightly green fruit may be used with safety.

A new type of safety glass that eliminates eye strain has been developed for motor vehicles. Reflections from sun, snow and bright surfaced highways are filtered out by the new glass.

The starfish has one set of eyes on each of its five arms.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost color so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason, she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15¢—the price of one package of Diamond Dyes."

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never spot, streak or run, and friends never know the things I dye with Diamond Dyes are redyed at all!"

Mrs. R.F., Quebec.

WORLD HAPPENINGS BRIEFLY TOLD

Patents granted in Czechoslovakia last year numbered 3,900, an increase of 250 over 1931.

Nearly 500,000,000 pounds of cocoa were grown in the Gold Coast territory of Africa last year; in 1931 the total output was only 80 pounds.

Applications to lease business lots and residential sites in Churchill, Man., Canada's new northern seaport on Hudson Bay, now are being accepted by the Manitoba Government.

Trustees of Lethbridge school board have decided to meet debentures and interest coupons in Canadian money only, thus following in the footsteps of the city of Calgary and its school board.

Spokesmen for 8,000,000 men who fought in the World War announced to the disarmament conference that they want peace and believe genuine disarmament to be essential to attainment of the desire.

Dr. V. K. Wellington Koo, principal Chinese delegate to the special League of Nations assembly which dealt with the Sino-Japanese conflict, urges international action to prevent Japan from establishing "mastery of the Pacific."

A decline of \$250,522,562 in Canada's trade during the elapsed 11 months of the present fiscal year, as compared with the same period of a year ago, is shown in a statement issued through the department of national revenue.

Empire materials are to be used on government contracts in future. This applies, not only to contracts let by the departments of government but also to the Canadian National Railways and government boards and commissions.

Charles F. Morrison, 80, a resident of British Columbia since 1892, is dead at his home in Metlakatla, near Prince Rupert. He helped build the famous Caribou road and, later, in 1895, he saw the first piece of lumber cut on Burrard Inlet.

In Sixty-Eight Years

Sprout of Walnut Tree Attained Diameter Of 32 Inches

Sixty-eight years ago, a tiny black walnut sprouting broke through the ground near Woodstock, Ont., and in time developed into a sturdy representative of its kind. Quite recently crowds of people attending the Produced-in-Canada Exhibition in Montreal, viewed with interest a flawless cross-section from the trunk of this tree, having a diameter of 32 inches and with growth rings indicating its age. The block formed part of the woodwork display of the Rutherford Lumber Co., Limited, Montreal.

Cigarettes were for sale for years before the manufacturers started spending millions in newspaper advertising. Now they're being sold.

Ninety-six clergymen in the Church of England receive less than \$1,000 a year, 1,100 under \$1,500, and 2,293 less than \$1,750.

Taishata, the aerodrome near Canton, where many of the best pilots of China have been trained is to be abandoned.

OFF COLOUR?

HOW IS YOUR LIVER?
Wake up your Liver Bile
—Without Calomel

Your liver's a very small organ, but it certainly can put your digestive and eliminative organs out of kilter by refusing to pour out its daily two pounds of liquid bile into your bowels. You won't completely correct such a condition by taking salts, oil, mineral water, laxative candy or charcoal gum, or kudos! When you've moved your bowels they're through—and you need a liver stimulant.

Caution: Little Liver Pills will soon bring back bile excretion into your system. See bottle for full details. Safe. Sure. Ask for them by name. Before medicine. 30¢ at all drug stores.

Gardens At Fort Resolution

Many Crops Successfully Cultivated Far North Of Edmonton

Good gardens were again grown in 1932 at Resolution, on Great Slave Lake, 526 miles north of Edmonton, according to Dr. C. A. Bourget, M.D., the Indian agent at that point. In most of his own garden he could water with the help of an engine, and consequently had 135 bags of potatoes, against 150 the year previous. Unwatered gardens seem to have suffered, as they did at Hay River and Providence, farther west. Simpson, still farther west, had a bumper crop. Good onions and celery were among the doctor's 1932 achievements. He planted no tomatoes, but the corporal of the Royal Canadian Mounted Police and another gardener had satisfactory results with them, and the Oblate mission had green ones by the tubful, ripening some indoors. At various points Dr. Bourget finds a few of his Indians planting potatoes and vegetables, and surprising results are obtained.

Making Name As Architect

Work Of British Premier's Son Shows Great Originality

Allister MacDonald, son of the Prime Minister, is rapidly making a name for himself as an architect, and at least one distinctive picture house in the North bears witness to his originality. His latest work is a small London theatre which he has designed, a novel idea being that each row contains only six seats, which allows that annoying crushing to oblige late arrivals to reach their seats.

(By Ruth Rogers)

The main trans-Canada highway passes through the ruins of the slide of 1903, when upwards of 90 persons were buried alive. Millions of tons of rock and earth swept in an avalanche over the valley. To safeguard travellers it is being urgently asked that the road be changed to a route beyond the danger line. Appeals are going forward to the government along these lines.

Old timers are now recalling the Frank slide horror of April 29, 1903. Early in the morning and without the slightest warning, Turtle Mountain, rising 3,000 feet above the mining village, was torn asunder and a hundred millions of tons of debris fell with a thundering roar over the settlement and across the valley. A thousand acres were covered with limestone rock to a varying depth of a foot to a 150 feet. Many miners' cottages were buried, others were destroyed. Much of the colliery works was swept away and a river was dammed while a mile and a quarter strip of the C.P.R. railway tracks was buried.

The tragedy would have been intensified had the slide occurred five minutes earlier for the C.P.R. passenger train had just passed through the village when the slide occurred. Whole families were wiped out, others lost some of their members. For years this enormous tomb remained little disturbed. Rocks have been moved and in these excavations the remains of some of the victims have been discovered.

SEVERAL ARE THE SCHEMES — LOVELY FOR THIS CUTE JACKET DRESS
Here's a darling red and white crepe silk print with a plain red sleeveless jacket to complete it. The jacket has a cape shoulder now so yeghish.

The dress is the simple slim-line type. Inverted plaits at the front, provide an interesting swing to the hem without disturbing the slender line of the skirt.

You can copy it exactly just the cost of the material.
Style No. 631 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Size 16 requires 3½ yards 39-inch for dress, with ¾ yard 39-inch for jacket.
For cruise wear, it's effective with the sleeves omitted from the dress. Carry it out in white, pale blue or maize tubular crepe silk.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin

Alberta Government Warns Rock Residents

Recurrence Of 1903 Rock Slide May Occur Any Time

Although they have been warned that Turtle Mountain is again in an ugly mood, villagers of Frank, Alberta, west of Lethbridge in the Crow's Nest Pass, are not moving. They are clinging to their cottages and belongings as they cannot believe the mountains that slid in 1903 will repeat the horror. Yet slowly the crevices grow wider and the danger to life and property increases.

Rock slides may occur at any time. Specially are they likely in the spring and the Alberta government has sounded a warning.

The main trans-Canada highway passes through the ruins of the slide of 1903, when upwards of 90 persons were buried alive. Millions of tons of rock and earth swept in an avalanche over the valley. To safeguard travellers it is being urgently asked that the road be changed to a route beyond the danger line. Appeals are going forward to the government along these lines.

Old timers are now recalling the Frank slide horror of April 29, 1903. Recipes For This Week

(By Betty Barclay)

FRUIT SALAD IN ORANGE CUPS

(Serves 6)

- 6 large oranges.
- 12 marshmallows, quartered.
- 1 cup diced pineapple.
- 1 cup banana slices.

Lettuce.
Choose the seedless oranges with deep golden-colored, clean skins. Cut off tops and remove pulp, leaving orange baskets. Flute edges if desired. Combine ingredients, fill orange cups and arrange on lettuce-covered salad plates. Serve with mayonnaise, which has been blended with ½ orange juice.

MINCED VEAL CUTLETS

- 2 lbs. shoulder of veal, boned.
- 1 cup finely crumbled saltina crackers.
- 1 egg.
- 1 small onion, minced and fried.
- Salt and pepper.
- Dash of grated nutmeg.

Put meat through grinder, add finely crumbled crackers, fried onion, egg, salt, pepper and nutmeg. Mix thoroughly and shape into small cutlets about ¼ inch thick. Fry in a small amount of hot fat browning on each side and then cook slowly for 20 minutes. Serve with buttered carrots. Six portions.

Prince Converted In Spanish

Explained Treasures In Windsor Castle To Argentine Official Mission

The Prince of Wales and Prince George acted as guides to members of the Argentine official mission during their visit to Windsor Castle. The party first inspected Eton College and then motored to the castle, where two hours were spent seeing St. George's Chapel, the State and private apartments, and the royal library.

The Prince of Wales, who spoke in Spanish, explained in detail the treasures which he showed the visitors.

Fifty per cent. of the people in the world still carry an amulet or other charm to protect them from bad luck, evil spirits and sickness, it is said.

SUNDAY SCHOOL LESSON

APRIL 2

JESUS' MINISTERING TO JEWS AND GENTILES

Golden Text: "Other sheep I have, which are not of this fold; them also I must bring, and they shall hear my voice, and they shall become one flock, and one shepherd."—John 10:16.

Lesson: Mark 7:3-37.

Devotional Reading: Isaiah 11:1-10.

Explanations and Comments

Jesus Ministering To His "Other Sheep" verses 24-30.—From Capernaum Jesus went northward beyond the confines of Galilee into a region round about the Phoenician cities of Tyre and Sidon. He entered a house and wished no one to know of His presence, but He could not be hid. In these words we get a glimpse of what Jesus meant when He said, "I drain it was upon his resources of body and spirit. In silence and solitude He would repay His work."

"The verdict of all the centuries is this, that there is in Jesus which is irrepressible. I have seen a rock split in twain by a seedling that rooted in the crannies. A seed had fallen, and the spring had quickened it, and it rent its prison-house where it lay in beauty, and so in the ages has it been with Christ. He has been buried out of sight a thousand times, and the thousand times when hope was most dead, the world has learned that He could not be hid. That is the meaning of the Reformation, when Christ stepped forth again out of the darkness. That is the meaning of every revival, when Christ is uplifted and every eye beholds Him. That is the meaning of all social effort which is so earnest in our land today; for it is Christ who is moving in it, and He cannot be hid."—C. H. Morrison.

A Cure In The Decapolis, verses 31-37.—When Jesus left the neighborhood of Tyre He went northward to Sidon and returned home by a circuitous route which brought Him to the eastern shore of the Sea of Galilee in the Decapolis. There a man who was deaf and could not speak plainly was brought to Him for cure.

The Greek word translated "had an impediment in his speech" is sometimes considered as meaning "dumb," but from the announcement of his cure in verse 35, that he "spoke plain," it does not seem to mean that he was dumb. Jesus took the man aside, possibly out of thoughtful kindness because the man's affliction had made him nervous and self-conscious, or perhaps because Jesus wished to avoid the crowds of the afflicted that would be on one's track for Him. He had other work to do. Here as in Mark 8:23, John 9:6, He used visible signs, put His fingers into the man's ears, spat and touched his tongue, then looking up to heaven in prayer He said to the man "Ephphatha," "Be opened." At the same time Jesus would speak plainly, Jesus would not have the miracle made known, but it was too wonderful to be kept hid. With great astonishment they cried: "He hath done all things well; He maketh even the deaf to hear, and the dumb to speak."

"The man was living a dull, meager, unsatisfying life in a world of unbroken silence. In the face of such a lack it was only in line with the main purpose of One who came to recover that which is lost that He should put His hands upon this lack of power saying: 'Ephphatha.' Be opened. He would open up new avenues of approach to that handicapped life that through the uplifted gates of a fuller message of this world of interest might enter into his personal consciousness. The Master is saying to every life that hears not the still small voice of the Spirit of the Living God, 'Be opened.' He would have it react under every sort of stimulus visible and invisible, tangible or spiritual. He would have the entire world of reality perpetually finding its way into the deeper consciousness of every man."—Charles R. Brown.

Planting Trees

Early Spring Is The Best Time For This Work

Deciduous, that is broad-leaved, trees should not be planted when in leaf. The planting should be done either in the spring before the leaf buds begin to open or in the autumn after the leaves begin to fall or have been completely shed, says the tree planting division, Dominion Department of Agriculture. The best time is early in the spring as soon as the ground has thawed out. Trees are then quick with new life and if moved can readily provide new feeding rootlets and adapt themselves to changed conditions. The actual planting will vary with the locality and season, but in general it should be done in April or early May.

Collecting Gold

Report Says Britain May Return To Gold Standard

The financial editor of the Sunday Express states that the Bank of England is planning to resume 250,000,000 pounds sterling in gold, and then return to the gold standard.

He said the gold stock now on hand totalled 168,000,000 pounds sterling as compared with 120,000,000 pounds in January 1.

Traffic policemen of Rome, Italy, received showers of gifts from autoists on recent gift days.

ESTIMATED COST OF FARMERS' AID FUND IS GIVEN

Ottawa, Ont.—Cost of the agricultural stabilization fund to the federal treasury will be more than \$6,000,000, but less than \$10,000,000, dependent on the volume of business in the commodities affected on currency exchanges, said Premier R. B. Bennett. The Prime Minister made this estimate in the House of Commons when questioned about the fund by Rt. Hon. Mackenzie King, leader of the opposition. Mr. King asked why provision for the fund should be made in the relief bill then before the House since it was not a relief measure, but a bonus or subsidy.

"It is not a bonus or a bounty in the ordinary sense of those words," said Mr. Bennett. "It is properly a relief measure and is consequently on the low price of farm products and the depreciation of the currency of the country to which they are chiefly exported."

The relief bill provided for farm as well as unemployment relief, Mr. Bennett went on. The low prices of farm commodities made relief necessary. The stabilization scheme would provide relief for the farmers by improving prices for the commodities it applied to, and providing security against exchange fluctuations.

Hitler In Command

Act Passed Granting Nazi Chief Four Years Of Dictatorial Power
Berlin, Germany.—The reichstag, with only the Socialist opposing, passed an empowering act granting Chancellor Hitler's demand for four years of dictatorial power.

Chancellor Hitler, shouting above the cheers of his Nazi deputies, demanded four years of dictatorial power.

He relegated the issue of the monarchy to the background, lifted the destruction of Communism to the fore of his program, reiterated the familiar Nazi thesis of arms equality for all and promised a campaign of "barbaric perjury" against all traitors.

Wave after wave of applause and cheers drowned his voice from time to time. The Nazis, who control the House, especially approved his dictum that, once adjourned, the reichstag would be recalled only from time to time "to be informed by the government of its acts when the assent of the reichstag is desirable."

The first big cheer came when he expressed his approval of "public decapitation" of the men who set fire to the reichstag building just before the last election. There was tumultuous applause also at his announcement of a campaign of "barbaric severity against all guilty of treason."

"No gigantic revolution of similar dimensions ever has been carried out with such unvarying discipline and so little bloodshed as our revolution," he cried, and the Nazis cheered again.

He condemned as "an unexpunged crime" the 1918 revolution which gave birth to the German republic, now virtually destroyed to make way for the new regime.

Expect Price Increase

Jams and Marmalade To Cost More, Is Prediction

Hamilton, Ont.—An increase in the cost of jams and marmalades is foreseen by Col. Armand Smith, of E. D. Smith and Co., Winona, as a result of the sugar and sales tax on jams. Fifty per cent. of the content of jam is sugar, he said.

Wine will be increased five cents per bottle, said William Aikens, prominent grape grower and wine man of Vineland, unless—and he thought this unlikely—the liquor control board absorbs the additional costs caused by the sugar excise tax and that on proof spirits.

Air Station To Be Dismantled

London, Eng.—Howden airship station, in the Yorkshire East Riding, home of the R-100, and during the war, of other airships, is to be pulled down. Howden airship shed cost £250,000, and was completed in 1921. The entire buildings cost £750,000.

Follow Canadian Plan

Washington.—Proposals for re-financing United States agriculture and home mortgages along the same general lines as the Canadian system will be sent to congress soon by President Roosevelt.

W. N. U. 1857

Peace Club Organization

Premier Of France May Meet Mussolini To Further Plans

Paris, France.—A trip by Premier Edouard Daladier to Italy for a direct discussion with Premier Mussolini may be the next move in efforts to organize a four-power "peace club," it developed here.

The meeting apparently depends on the reaction of Premier Mussolini to the conversations in Paris held by M. Daladier and Prime Minister Ramsay MacDonald, of Great Britain. The British and foreign statesmen discussed the Mussolini "peace club" project, which the Italian premier had explained to Mr. MacDonald when the British Prime Minister was in Rome.

Semi-officially it was revealed no plans have been made for the Daladier-Mussolini meeting, which probably would take place in northern Italy. For a number of years the Italian premier has made it a rule not to leave his own country.

In principle the French have agreed to the Mussolini plan, but certain modifications have been asked. The French want the "peace club" to operate within the framework of the League of Nations because they believe they would be able to muster sufficient influence in the league to halt or counteract a possible Italo-German bloc against them.

Wheat Conference

Plans Have Not Yet Been Advanced For U.S. Participation

Washington.—Plans have not yet been advanced for United States participation in a conference of wheat exporting countries, including Canada, seeking grain price stabilization, but this part of President Roosevelt's program of economic rehabilitation by international action was believed to be awaiting congressional consideration of the administration's farm relief formula.

A significant note in the new American government's plan to restore trade normality through reciprocal agreements with customer nations was Secretary of State Hull's announcement that just as soon as congress has completed work on emergency domestic relief legislation, the president will request blanket authority to negotiate understandings involving exchanges of tariff privileges, lowering of embargo restrictions and removal of other barriers to reciprocal commerce. Meanwhile, the wheat conference was awaited as a remedy to the existing acute world condition in which exporting countries hold vast surpluses while countries normally considered as wheat importers do not buy.

Home Rule For Canada

Premier Brownlee Of Alberta Would Give Canada Right To Amend Constitution

Edmonton, Alberta.—Full right for Canada to amend her own constitution, giving home rule in every sense of the term, is proposed in an amendment which Premier Brownlee moved to a resolution under debate in the legislature here.

The amendment was to a resolution moved by Col. F. C. Jamieson, Conservative, Edmonton, who proposed that the provincial government endeavor to make an agreement with the Dominion that no request for an amendment to the B.N.A. would be made without the consent of this assembly.

A Narrow Escape

Little Girl Ran Over By Train, But Is Uninjured

Didsbury, Alberta.—Two-year-old Clara Klein, daughter of Mr. and Mrs. Otto Klein of Didsbury, was run over by a train, but is alive and uninjured although badly frightened.

The child was walking on the railway tracks when a train approached. Terrified, she started to run but stumbled and fell.

The engineer applied the brakes. The engine, however, passed over the little girl.

Members of the train crew tumbled hastily from the cars and found Clara beneath the coal-tender. The child was slightly hysterical but had escaped without a bruise.

Starting Bank Probe

Ottawa, Ont.—The government will set to work at once to set up the royal commission to investigate the Canadian banking system and consider the pros and cons of arguments in favor of a central banking system. The commission was confirmed in the budget speech of Hon. E. N. Rhodes, Minister of Finance, in the House of Commons.

Treatment Of German Jews

Canadian Delegation Asks Premier Bennett To Investigate Trouble

Ottawa, Ont.—Jewish members of the House of Commons, consisting of S. W. Jacobs, A. A. Heaps and Samuel Factor, waited on the Rt. Hon. R. B. Bennett, Prime Minister and Minister for External Affairs, asking, on behalf of Canadian Jews, that steps be taken to ascertain the nature of the mistreatment alleged to have been suffered by German Jews since the Hitlerite government came into power.

The Prime Minister received the delegation sympathetically and undertook to communicate with Dr. Oscar Skelton, under-secretary of state for external affairs, who is in London, asking for a complete report on the situation.

The delegation took the view that Canada, being a member of the League of Nations, of which Germany is also a member, and that as racial and religious rights are safeguarded by the league, appropriate action could be taken by that body to preserve Jewish rights, which, it is claimed, are being attacked by the Hitlerite forces.

MANY SIGNS OF WORLD RECOVERY ARE IN EVIDENCE

London, Eng.—In an optimistic speech in the House of Commons, Neville Chamberlain said he could not see why the world economic conference would not be held within the next two or three months.

The Chancellor of the Exchequer has been charged with being too pessimistic in recent months, but this speech found him in a different mood.

"Looking over the world," he declared, "one can see indications the industrial situation is likely to improve within the next few months." Mr. Chamberlain also found comforting reports in the United States and in Europe. "Confidence has largely been restored in the United States and on the European continent and, where the situation a few months ago was considered desperate, any one can see there have been remarkable beneficial changes."

Mr. Chamberlain looked to the restoration of export trade as the best aid to recovery in the United Kingdom. Trade had been hampered by excessive tariffs, exchange regulations and prohibitive quotas, he asserted.

Although there had been stagnation in some sections of British trade, there had also been considerable activity in others. For instance the first two months of this year had seen automobile exports equal both in number and value the exports of three months of last year.

One brief, but vital reference was made by Mr. Chamberlain to the domestic employment situation. "The policy of aiding unemployment by instituting relief works," he said, "has been tried, but it failed. We don't intend to resume it."

SITS WITH LEAGUE

A recent photograph of Hugh R. Wilson, United States Minister to Switzerland, who has been named as will sit in at the League of Nations deliberations on the Far Eastern trouble. Although the United States will not vote, nor will it bow in advance to League decisions, it will co-operate with other nations in endeavoring to find a solution to the Sino-Japanese tangle.

Large Conversion Loan

Opportunity May Be Presented To Canadian Bondholders In The Fall

Ottawa, Ont.—A large conversion loan is expected to be laid before Canadian bondholders early in the fall but it is unlikely any issue will be offered before that time, it is learned here. In his budget speech, Hon. E. N. Rhodes, Minister of Finance, forecast a conversion loan "at the opportune time."

The heaviest obligations of the government mature as a rule late in the fall and this year it is understood the funding requirements will be in excess of \$300,000,000.

Canadian Banks Sound

Chartered Bank Comes Through Run Without Assistance

Ottawa, Ont.—One of the chartered banks of Canada came through a "run" in which \$10,000,000 in deposits were withdrawn, without the aid of assistance from other banks or from the Dominion government. Premier R. B. Bennett told the House of Commons.

The Premier mentioned this as an instance of the soundness of Canadian banks when his government was charged with unfairness in not coming to the aid of the Manitoba savings office last year.

Alberta Redistribution

Edmonton, Alberta.—Alberta government will inquire into redistribution of provincial ridings if the legislature adopts a resolution introduced by Hon. O. L. McPherson, Minister of Public Works. Quite a reduction in the number of legislative members would result, it was stated, if such an inquiry was held.

THE SOUTH ATLANTIC'S FIRST FLOATING AERODROME

The Norddeutsche Lloyd liner "Westfalen", of 5,000 tons, has been converted into a floating aerodrome and is to be placed in the South Atlantic Ocean for the use of pilots on the way to and from South America, from Africa. Our picture shows the catapault on board the "Westfalen" for starting flying boats.

Continue Relief Plan

Minister Of Labor Replies To Question Of Opposition Leader

Ottawa, Ont.—The Dominion Government will continue to do in the future what it has done in the past year with regard to unemployment relief, Hon. W. A. Gordon, Minister of Labor, told the House of Commons. The minister was replying to a question in which Rt. Hon. Mackenzie King, leader of the opposition, asked whether "apart from the dole, the minister had any comprehensive, co-ordinated plan to announce to the House dealing with unemployment relief."

The government's policy was that money would be devoted first to assisting the provinces where they were unable to take care of their own people, said the minister. The government would help the provinces to protect any schemes which they may conceive or which the Dominion may conceive within the financial limitations of the governments to direct employment or take care of direct relief.

Mr. Gordon believed the situation was not getting worse. He knew there were people who would be gratified to see things on the down-grade and thus fulfill their own prophecies. However, the Dominion government would not invade the jurisdiction of the provinces.

Wins Air Trophy

Edmonton Flyer Awarded Recognition For Meritorious Service

Ottawa, Ont.—Maurice Burbridge, instructor of the Edmonton Flying Club, has been awarded the trans-Canada trophy for meritorious services to aviation during 1932, according to an announcement issued recently from the headquarters of the National Defence Department. Mr. Burbridge is the sixth winner of the trophy, annual award of which began in 1927.

Mr. Burbridge joined the Royal Flying corps in 1916. He was appointed instructor to the Edmonton Flying Club in 1929, and to his energy and leadership has been attributed the outstanding record of that organization.

Frowns On Lotteries

Premier Bennett Says Winnings Should Be Forfeited To Crown

Ottawa, Ont.—Expressing the opinion that the winnings of all lotteries should be forfeited to the crown, Prime Minister R. B. Bennett, in the House, voiced his "strongest opposition" to anything that would stimulate speculation among the Canadian people. Mr. Bennett was winding up a brief discussion on the bill amending the criminal code respecting lotteries, sponsored by P. F. Casgrain (Lib., Charlevoix-Saguenay). The bill was talked out.

GOVERNMENT TO STUDY PLANS FOR IDLE INSURANCE

Ottawa, Ont.—The House of Commons took the first step to extend for another year the government's unemployment relief legislation and clothe the administration with wide powers, to deal with the "peace, order and good government" of the country.

Without recorded division, a resolution was passed instructing the government to bring in the relief legislation, climaxing a week or more of debate.

The government is gathering data on a contributory unemployment insurance scheme, but every turn collides with the constitutional rights of the provinces, Hon. W. A. Gordon, Minister of Labor, told the House. It will be necessary for the provinces to surrender some legal rights before a nation-wide scheme is possible, added Hon. Hugh Guthrie, Minister of Justice.

At the recent Dominion-provincial conference, continued Mr. Guthrie, the provinces declined to surrender their legal powers over insurance and were opposed to an amendment to the British North America Act to enable the Dominion to act alone.

Before any federal scheme could be established, the Dominion must have power to compel employers and employees to contribute to the central fund—a power now vested in the provinces.

The Dominion placed no detailed insurance scheme before the provinces at the conference, the labor minister said, discussion ranging around the constitutional issues at stake. Until that barrier was removed, details were impossible.

CHURCHILL RAPS FOREIGN POLICY OF MACDONALD

London, Eng.—Prime Minister Ramsay MacDonald, facing the House of Commons for the first time since his Rome peace conversations with Premier Benito Mussolini, of Italy, ran into bitter opposition from Rt. Hon. Winston Churchill, former Conservative Chancellor of the Exchequer.

Mr. MacDonald sought to assure the House of what he regarded as the soundness of the Mussolini "peace club" plan and of his belief that, with slight redrafting, the British and the Mussolini plans might be made to coincide. His speech brought cheers from the government benches, but roused Mr. Churchill to a bitter attack on the whole British foreign policy.

For four years, the former chancellor said, the Prime Minister had directed the nation's foreign policy, and yet the United Kingdom was nearer war than before.

He described the conversations Mr. MacDonald and Foreign Secretary Sir John Simon had with the Italian premier as a visit to "Don Quixote and Sancho Panza."

He contemptuously scored methods of the world disarmament conference as "measuring swords at Geneva" and as "a fertile advertisement of all the apparatus of war." France, he maintained, could not support the British disarmament plan which the Prime Minister and Sir John delivered in an effort, generally considered at least partially successful, to rouse the conference to renewed activity.

Mr. Churchill attacked that portion of the MacDonald plan which called for reorientation of army effectiveness among European states, including reduction of French forces and increase of those in Germany.

Germany, he declared, was going through "a tumultuous insurrection of ferocity" and was "spitting" at the idea of extending "pitiless treatment to minorities" and of "denying normal treatment to civilized society merely on account of race."

Canadian Rifle Team

Congratulated By Governor-General On Their Performance

Ottawa, Ont.—The performance of the Canadian rifle team at Bisley last year placed Canada in "a very good position." His Excellency the Earl of Bessborough, Governor-General, said in congratulating the Dominion of Canada Rifle Association on a successful year. His Excellency attended the annual meeting of the organization held here.

Indications the rifleman was coming back to his old position of importance in the army were seen by Major-General A. G. L. McNaughton, chief of the general staff, who also addressed the meeting.

Major C. R. Crowe, of Guelph, was elected president, succeeding Col. D. R. Street, of Ottawa.

Cut Through Snow Drifts

Use Cross-Cut Saw To Open Up Highway

Fernie, B.C.—The provincial board of works has completed a cut through the gigantic snowdrift on the highway between Fernie and Elko, which came down about the middle of January and blocked the road. The cut through the slide is of exceptional proportions, perhaps the greatest ever made in Canada. It is more than 1,000 feet in length with a maximum depth of 32 feet. It was necessary to cut out blocks of the packed snow and ice with cross-cut saws.

No Plans For Conference

Washington.—Plans have not yet been advanced for United States participation in a conference of wheat exporting countries, including Canada, seeking grain price stabilization, but this part of President Roosevelt's program of economic rehabilitation by international action is believed to be awaiting congressional consideration of the administration's farm relief formula.

Radio Centralization

New York.—Canadian independent radio broadcasting companies will probably be drawn into a centralized corporation patterned after the British model, Major M. E. Gladstone Murray, public relations counsel of the British Broadcasting Corporation, prophesied on his arrival here recently.

The Agricultural Dollar

Value Has Greatly Decreased During Last Few Years

A Brant county farmer in a letter to the Farmer's Advocate, rightly deprecates the shrinking value of the agricultural dollar, due to the ridiculously low prices of farm commodities and the relatively high obligations he has to meet in taxes, insurance, rent, etc. This tiller of the soil has kept a record of transactions over a period of years. On delving into the past for purposes of comparison with present day financing problems he discloses the following:

I turn my ledger of 1914 and find: October 1, sold 100 bushels of wheat at \$1.05 per bushel—\$105; October 29, 6 bushels at 7 cents—\$80.50; November 4, 1 cow at 5 cents—57, making a total of \$242.50. On the other side I find: December 1, taxes, \$47.28, a little less than one-fifth of the income.

Then I turn to 1932 and find: Wheat, 100 bushels, sold at 45 cents—\$45; 6 bushels at 3½ cents—\$21; cow at 2 cents—\$24, or a total of \$111. But now comes the rub, for turning to the other side of the ledger I find the item of \$130 paid for taxes. This shows how the farmer's dollar has shrunk without even mentioning the Dominion and Provincial taxes that we pay indirectly from day to day.

One can readily see that the agriculturalist today has a hard row to hoe when a quantity of farm products sold two decades ago would have paid the taxes five times over, whereas today the same quantity won't even settle the tax bill. It goes to show that the farmer must be paid more for his commodities if he is to make ends meet. We can't expect better times until wheat, hogs, cattle and other farm products bring much higher prices.—Kitchener Record.

Activity In Grain Shipments

Heavy Grain and Apple Shipments From Vancouver Port

Activity at the port of Vancouver continues at a high pitch, and February grain shipments attained record figures for the period. Total grain exports from the opening of the present crop year on August 1, 1932, to February 28, 1933, are far in advance of the corresponding seven months of the previous crop year, with the great bulk of shipments going to the British Isles and European ports. A marked increase in apple shipments through Vancouver and other British Columbia ports has been a feature of this year's business.

For the month of February, total grain shipments aggregated 10,955,654 bushels, a new port record for the month, as compared with 6,795,513 bushels for the same month last year. Total grain shipments for the crop year up to the end of February, 1933, amounted to 68,049,318 bushels as compared with 44,556,489 bushels for the similar period in 1932. Of this year's total 55,029,270 bushels went to Britain and Europe, 8,806,641 bushels to the Orient, and the remainder to other countries.

Apple shipments through British Columbia ports up to the week ending February 18, 1933, totalled 701,625 boxes as compared with 150,603 boxes to the same date last season.

Received His Share

Man Got Household Goods As Divided By Former Wife

A recently re-wed man, says the Chicago News, received his share of the household goods the other day as divided by his former wife, now living in Santa Barbara. Some 470 pieces had been put in storage when the marital smash-up occurred, and the assortment included some choice bits of old mahogany, pieces of Staffordshire and Spode, rugs, mirrors and pictures. When he unpacked the crates he found his share was: One stuffed owl, one baby carriage, his coat of arms, an Alpenstock, an old butter churn, a box of masquerade costumes, an assortment of college pennants, one red-leather chair.

A Real Bargain

Admiral Sir Murray Anderson, the new governor of Newfoundland, reminded his friends the other day that Newfoundland was discovered by a British sailor, who got \$50 for it. Although money went farther in 1497 than today, the governor thinks somebody got a bargain.

The oldest varnish still existing in the world is that on Egyptian mummy cases. In some instances, the varnish is 2,500 years old.

W. N. U. 1987

AS NEPTUNE GAINED ANOTHER VICTIM

A spectacular picture of the last moments of a good ship before she took the final plunge to Davey Jones' locker. The stricken vessel is the Danish motorship "Gretagne" which went to the bottom off the coast of Holland after a collision with the British craft, "Redees", from which this picture was made.

Saskatchewan Relief

Figures Show Wide Extent Of Undertaking To Aid Farmers

Administering to 275,000 people last year, the Saskatchewan relief commission distributed 4,500,000 bushels of wheat in need alone, 300,000 bushels of oats, 500,000 bushels of coarse grains and 4,000,000 gallons of coal oil according to Clarence B. Daniel, general manager of the commission, who characterized its work as probably the biggest relief undertaking on the continent.

The system is one of return as well as distribution, the latter being made with provision for repayment before November of this year. Mr. Daniel was interviewed while on a visit to St. John, N.B.

Already, under the repayment system, the commission has collected 2,000,000 bushels of wheat, 300,000 bushels of oats, 150,000 bushels of barley and 200,000 bushels of rye. Conditions in Saskatchewan improved this year, said Mr. Daniel, but relief work will be necessary until August.

Uniformity Of Sentences

Disparity Of Penalty Meted Out To Different People Charged With Same Crime

Uniformity of sentences on accused persons charged with similar crimes was urged at Calgary by Mr. Justice A. A. McGillivray of the appellate division of the supreme court of Alberta.

In his address to the Calgary Bar Association, his lordship also urged establishment of a civil code similar to the Criminal Code of Canada, and legislation preventing courts of appeal from writing more than one judgment. Mr. Justice McGillivray spoke on "Reflections of a Junior Judge."

"One of the observations I have made is the disparity of sentences meted out to different people charged with the same crime," he said. "Some people seem to draw different sentences. I appreciate that judges should use discretion under different circumstances, but there should be some semblance of uniformity in sentences."

Benefit To Publishers

Magazine Tariff Has Given Work To Canadian Firms

Several Canadian printers and publishers have benefited as the result of the magazine tariff which came into effect on September 1, 1931. These firms print the Canadian editions of fifty-two regular published United States magazines with a combined annual circulation of approximately 22,000,000 copies. The combined circulation averages 2,000,000 a month. Of these magazines seven, with a circulation of 262,000 per issue, are published weekly; seven, with a circulation of 106,000, semi-monthly; 35, with 562,000 circulation, are published monthly; 3, with a circulation of 3,000 are published quarterly. In addition to these totals publication of a few magazines has been temporarily suspended and one or two issued at irregular intervals.—Brandon Sun.

Last Of Original Mounties

Sergeant Harry Keenan, of Prince Albert, sole survivor of the original R.N.V.M.P., is also an Irishman by birth, and his birthday falls on March 17. Sergeant Keenan has reached his 80th year. He is in good health, despite the long cold winter, and takes his daily walk, chatting with his old friends as he meets them on the streets. His memory his excellent and he recalls many interesting events in his long service in the famous force.

Machines for setting type by photographic processes have been developed.

Japan is considering a closer supervision of imports.

Claim Is Unchallenged

Rutland Is Most Law-Abiding County In Great Britain

For the tenth year in succession there were no prisoners for trial at the assizes held recently in Colchester, England. Rutland's claim to be the most law-abiding county in Great Britain is unchallenged. Only 10 policemen are needed to watch over the 97,000 acres of the county and control the 17,000 or so Rutlanders. F. W. Golder, chief constable, finds it difficult to recall when the white-washed prison cell in the police station last had a tenant. He has ample time for indulging in his favorite pastime of gardening.

In the opinion of Mr. Golder, absence of big towns is largely responsible for lawfulness. Crime is a product of environment, he says. In this cheese-making country everyone knows everyone else and they all try to be friendly to each other.

In many ways the life of Rutland remains the same as it did in feudal days. Old families have managed to retain their estates to a greater extent than in most other parts of the country. The landlords show great interest in the well-being of their tenants and by assisting them whenever possible, help to make them contented. There are worse systems than the old feudal system.—St. Thomas Times-Journal.

No Ban On U.S. Broadcasts

So Declares Canadian Radio Broadcasting Commission

No ban is being placed on the broadcasting of United States radio programmes in Canada, officials of the Canadian radio broadcasting commission declared. A Toronto radio station and its announcer will be called upon by the commission to explain statements made over the air alleging a commission "edict" against United States broadcasts.

Far from prohibiting United States programmes, the commission states it has entered into tentative negotiations looking to an exchange of programmes between the commission and the larger United States broadcasting companies.

A Good Record

Nineteen of twenty-one murders committed within the precincts of Greater London were solved by the metropolitan police last year. This is a record the authorities of the great British metropolis may well be proud of. Politics and stack court procedure are things that do not enter into the question of justice in the Old Country. Hence this notable achievement.

Scientists say that smiling babies are no more intelligent than solemn ones.

Toured Sahara On Bet

Young Swedish Society Woman Crossed Desert In Small Car

As a result of a bet, Madame Dickson, a beautiful young Swedish society woman, has just crossed the Sahara Desert and equatorial Africa in a small automobile. Accused at a dinner party in Nairobi of being interested only in dancing and cocktails she bet that she could cross the desolate country. Mme. Dickson started the next day, accompanied only by a native boy, and went through Kenya, Uganda, the Belgian Congo, French Congo, Nigeria, and across the Sahara by way of Gao, Isaleh and Biskra. Parts of the route were under water, and near Fort Lamy one large and five small bridges had been washed away. She rode 75 miles on horseback to a military post for help, and in 24 hours all the bridges were repaired.

England's Historical Exhibit

Wheat From Land Tilled 89 Years Sent To Grain Show

English farm land, tilled continuously for 89 years, will be represented at the forthcoming World's Grain Exhibition at Regina.

Specimens of wheat grown on the same ground for 89 years will constitute part of an historical and educational exhibit arranged by the Rotarist experimental station at Harpenden, Hertford, according to word reaching the city Saturday, March 18. The exhibit will also demonstrate by graphs and models the effect of extended research into cultivation of potatoes, mangolds and other crops. In addition there will be an exhibit in the commercial section of machinery and other products of British manufacturers.

Fruit Growers Organize

Formation of an organization to be known as the "B.C. Coast Growers' Association," was decided upon at a meeting of 28 delegates, representing approximately 1,000 fruit and berry growers of British Columbia. This action was taken following reports from Penitence that the B.C. Fruit Growers' Association would be unable to carry on.

Nothing To Say

Leaving England for America, Sir Ronald Lindsay, the British Ambassador, said to reporters: "There is little more that I can tell you, for I have gone on a gold standard of silence." This would be another ideal world medium of exchange, for those in high places or low who have nothing to say.

Defoe based his story, "Robinson Crusoe," largely on the experiences of Alexander Selkirk, a castaway.

Doing Good With Little

Scheme For Helping Others Works With More Than Money

Benjamin Franklin, whose can't-seem never to have been exhausted, once hit upon a unique plan for multiplying the good his money might do. While in France he sent ten louis d'or, about \$45, to a friend, writing him as follows:

"I do not pretend to give such a sum: I only lend it to you. When you shall return to your country with a good character, you cannot fail of getting into some business that will in time enable you to pay all your debts. In that case, when you meet with another honest man in similar distress, you must pay me by lending this sum to him; enjoining him to discharge the debt by a like operation, when he shall be able, and shall meet with another opportunity. I hope it may thus go through many hands, before it meets with a knave that will stop its progress. This is a trick of mine for doing a great deal of good with a little money. I am not rich enough to afford much in good works, and so am obliged to be cunning, and make the most of little."

It's a scheme that works with more than money. A friendly tip to a boy, confused by the maze of affairs into which he has been thrust; a cheering visit to the bedside of an acquaintance who has sloved up; a word of encouragement to the friend who is blue—all of these, too, may be increased as were Franklin's louis d'or. To be sure, the obligation to multiply them by passing them on is not to be so explicitly stated; the necessities of life about it all is that it need not even be mentioned. Friendliness, thanks to some wise provision of human nature, almost invariably begets friendliness.—Rotarian Magazine.

Agricultural Stabilization

Expected That Farmers Should Realize More On Sales Of Wool

The most important news the budget brought to the farmers of Canada was the announcement of the agricultural stabilization fund. By it the government guarantees that Canadian exporters to the markets of the United Kingdom will be protected against the fluctuations in sterling exchange. This fund will make up the difference to the exporter between the exchange value of the pound sterling, which today was \$4.11½, and the Canadian dollar and a fixed price of \$4.60.

The stabilization will be applied to animals, meats (including bacon and hams), poultry, fresh fish, canned fish, tobacco, cheese, milk products, canned fruits, canned vegetables, maple products. Instead of the exporter losing his cheque on the basis of \$4.11½ to the pound sterling, the bank will pay him at the rate of \$4.60 and charge up the difference to the stabilization fund.

It is estimated that with the present rates, when the sterling is approximately 12 per cent. below the \$4.60, and the improved export business which it will encourage, it will cost the government roughly \$6,000,000 a year. It should increase the price of a 1,200-lb. steer to the exporter by \$10.80, agricultural officials estimate. It should boost the price in the domestic market to a somewhat similar amount. It is figured it will increase the price of live pigs in the Canadian yards by one cent a pound.

Enemies Of Man

Worry, fear, anger, hatred, are the enemies of mankind. It is doubtful if they can ever be entirely eliminated. But when their baneful influence is more generally recognized and understood there is no doubt that their virulence can be materially overcome. While they dictate the attitudes of individuals there can be no mental health; while they dominate the actions of nations there can be no peace.

Value Of Vegetables

The value of vegetables grown on farms (plots of one-acre and over) in Canada in 1930 was \$28,071,354, of which tomatoes accounted for nearly four million dollars, sweet corn 1.3 million, and green peas, onions and cabbages each slightly over a million dollars.

Puzzle For Posties

Swaziland, designing its new stamp along puzzle lines, cannot receive full credit for introducing that diversion into postal circles. Too many of those who address envelopes seem to have had the same idea.

A widely advertised cigarette made exclusively from tobacco grown in Canada is on sale in Great Britain and is proving a favourite.

Gardening Notes

By Gordon Lindsay Smith

When this old earth really begins to warm up in the spring the normal person feels an impulse to get out and dig, but the experienced gardener advises extreme caution. If the earth is too wet there is grave danger of a nasty cold, not to mention dire consequences to the soil itself. Too early working will cause the latter to pack down hard and it may require a whole summer of constant digging and raking to get it back into its old crumbly self again. There is a simple test. If the soil crumbles after it is little is squeezed in the hand, or if it does not muddy the boots, it is safe to go ahead.

Grafting and Truelling:—Grafting is not a difficult operation. The main thing is to get a portion of the inner bark of the scion or twig being grafted onto the tree exactly opposite and tight up against the inner bark of the limb of the tree, so that the two may grow together. When working on a big limb it is best to take the two or three twigs and insert them around the edge of the saved-off portion with the two inner barks in close contact. Later on when growth has well started, remove all but one twig. After putting together, tie tightly with raffia or some soft twine and cover all around the joint with grafting wax.

It is advisable to get some good Government bulletin on this subject before attempting the work. By grafting, one can repair a tree which rabbits or vandals have gnawed and which would die without this treatment, and can put a complete new top on a broken down tree or one of a non-desirable variety.

Grafting and training opens up interesting possibilities to the gardener. One apple can be made to fill the place of three ordinary trees if an early variety like the Yellow Transparent or Astrachan, a good early cooker like the Duchess, and a winter apple such as the McIntosh are all grown on the same trunk. By careful pruning and training, shrubs and trees may be made to assume weird shapes. One may make bushy trees of climbing roses by only allowing a single stem trained to a stake and then encouraging this to branch by cutting it off when it reaches a certain height. In Japan, by judicious pruning and withholding of fertilizer and water, pines and oaks of very dwarfed proportions are grown in palls and tubs.

Rose and Shrubbery Planting:—

Early spring is the proper time to set out most new shrubbery, roses, ornamental and fruit trees, climbing vines and other things purchased to make the grounds about the house attractive. These should be bought from the nearest reputable source of supply so that they may be planted as soon as possible. In planning this part of the garden it is important to secure plants that are suitable to Canadian conditions, and if satisfactory results are to be secured it is essential that good stock be bought. One will find the widest range of roses quoted, just as in any other line, but here again as always, good plants, well-grown, hardy and true to name cannot be sold at the lowest figure. Unless the plant is in prime condition with plenty of green bark, moist, pliable roots and large, live buds, it will have little chance and if it lives at all a whole year will be lost in getting it started.

On arrival, the new plants should be planted immediately in moist soil, but if this is not possible, dig a shallow trench and 'heel' in by covering roots freely with soil. All shrubs, rose bushes, trees and vines should have tops pruned back and they should be set in permanent quarters a trifle deeper than they were planted in the nursery bed. Give the roots plenty of room, spreading them loosely about the hole, then cover with good garden soil, throw in a pail of water, fill in the remainder of the hole and press soil down firmly. In the case of trees, provide some support against the wind in the form of a stout stake and tie with soft twine or raffia.

American Jazz Banned

American jazz music, especially the brand produced by Negro orchestras and singers, which Germans call "Vergergering," has been banned from the Berlin broadcasting station under the new government radio restrictions, it is announced. The ban was placed in accordance with Chancellor Adolf Hitler's cultural ideas, it was said.

Cleric: "I have received a letter from a firm asking for a reference for that man Brown who used to work here."

Manager: "Tell them that he is a rogue and a thief, and that anything he knows he learnt from us."

FANCIFUL FABLES

For PIES, PASTRIES and MILK PUDDINGS

Ask any good cook to tell you the secret of her success and she will say that to get a uniform, rich, improved flavor to your cooking you should always use St. Charles Evaporated Milk. It is economical, handy and makes possible a great variety of new and tasty dishes that you and your family will delight in.

CHAPTER VIII. A Deadly Trap

'Slo-lee' Jensen was glaring around him at the other five faces in the tent.

"Some of you lubbers," he growled, "ain't got the sense you were born with. You gimme a pain with your whining and growling and always wanting to argue about what I tell you. Now I'm gonna explain just what's ahead of us and what we gotta do."

The six men were as motley a crew as ever the whaling fleets of Bering's sea and the Western Arctic could muster up. With one exception the six of them were deck hands—wharf wolves of gutter speech and alley vices; strange men to be camped in the heart of a wilderness where even the Indians seldom penetrated.

There was John Siebelski, a square-faced sard Alaska, a descendant of the Cossack Promyshleniki (fur-hunters) who for generations, when Russia ruled the northwestern shores of America, had held brutal sway over the Aleuts and Kachin in their last for peltry.

There was Pete Gonzales, a Sandwich islander, brown-skinned, his white teeth flashing, his dress gaudy and picturesque.

There was "Lunnon Dick," a wiry stunted limy, with Battersea accent and quick jerky ways.

There was "Chink" Woolley, a quarter-Chinese, an olive-faced, silent nondescript, with his right arm in sling from Bill Hardcock's bullet.

The fifth was a Dogrib meti named Andre, a thin small weasel-like man of fifty. He had just returned from a scouting trip down the Big Alouka.

The six of them were talking, or listening rather to Jensen talk, of final plans to escape. Echoing the identical line of reasoning which Alan Baker had sketched in Haskell's cabin, Jensen went on: "Some of you wants go back to the River and git outside thataway. H—It's fire—you'd mebbe git ten miles afore the Yeller-stripes 'ud grab you off. Some of you wants go north to the Arctic coast. Whaffor? No ships to git away on, and the Yeller-stripes've got patrols there to boot. You say, 'Head south.' Yeah—and run into the nest of p'lice posts down there around Athabasca. We can't go south nor west nor north, but we kin go east—"

Lunnon Dick spoke up: "Clear hover 't 'Udson Bay or Manitoba? Two thousand miles haway? That's a bloody long and t'reet-Slo-lee!"

Jensen turned on him with a fierce anger and withering sarcasm that silenced Lunnon for an hour.

Confined Cooking Odors

CANAPAR

Improves flavour of meats, fish and vegetables. Pays for itself many times over. In all dealers or write—

Appleford PAPER PRODUCTS
HAMILTON, ONTARIO

"Sure it's a h—l long hard trot, you nuntly blge rat! Don't I know it? But I'd rather tramp ten thousand miles than to see twenty slow short steps from a housego to a scaffold!"

The others all nodded emphatically, fearful of Jensen's scorching anger. They were sitting there on a hundred and fifty thousand dollars which he had got for them. They owed their very lives to his quick thinking about the steamer, when he had pulled their trick out of the fire. And they were leaning on him now to save them from the Mounted and get them out to the oblivion of a big city.

He went on explaining the escape. "Now, here, all of you—look! here."

He smoothed a place on the mud floor; and as the others leaned forward to watch, he drew a rude map with his long thumb nail. "We'll follow the Inconnu east a ways and then head south for Manitoba. We'll spend the rest of this summer and fall working down into timber country. Then we'll find some good hiding place and build a couple of shacks and lay in meat, and we'll wait there till the break-up. Next spring we'll east on down and out to Winnipeg, and there we'll be with better'n a hundred and fifty thousand in hides and dust!"

His own personal and private plans after they did get out to Winnipeg, Jensen did not see fit to disclose. He knew a party there in the Queen City of the Wheat Plains who would buy the furs at two-thirds of their auction value and say "mudding." The dust, being unstamped, could be sold anywhere. He himself, both business manager and leader of this cruise, would naturally attend to those business matters. Once with the money in his pocket, would he split six ways with these lubbers? Or would he take a train and fade out of their lives and have that hundred and fifty thousand for his own sweet own? You bet your life he would!

The Others All Nodded Emphatically

With his plans clear and the men completely under his sway, Jensen leaned back against a piquet of furs and sat, smoking, thinking.

He guessed that for once the police were together behind. They must be rounding their heads to explain who he and his men were, where they had come from, how they had got into this country, unknown, unseen; and how they, complete strangers, knew the ins and outs of this northern wilderness as well as the police themselves. He thought of them as a pack of hounds circling frantically to pick up a scent. It was pleasing to know he had out-manoeuvred them from start to finish. A man who could beat the Yellow-stripes would have no trouble at all dodging the provincial police and town cops.

But this reflection was only on the surface of his thoughts. He was thinking of the MacMillan trading post, "Breed Andre had said that Dave MacMillan was not there. Jensen already guessed where the trader was. From the MacMillan girl being alone at the post, except for that white-whiskered old coot, Jensen guessed Dave MacMillan had got into trouble over that pack of otter furs in the storage shed.

Through the tobacco haze Jensen looked back across six years and saw up again all the details of a certain incident between himself and Joyce MacMillan. He had re-lived that incident a thousand times since it happened. The memory of it, the memory of that laughing-eyed girl, had come down across the years like the scent of fresh violets. Two weeks ago of hands she circled a certain island trading post, the place had seemed deserted; and drawn by some overpowering impulse to see her, to be near her again, he had fang caugion and hot haste to the winds, and stopped, and gone ashore. The picture of that MacMillan girl asleep, an arm under her head, a great-spurred violet in her hair—that flesh-and-blood reincarnation of her former memory had been a madness in his blood ever

FREE TRIAL OFFER OF KRUSCHEN

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c. package. This consists of one regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Upon the trial bottle, put it to the test, and then, if as entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it home. Your druggist is authorized to return your 75c. immediately and without question. You have tried it—Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Inc., Ltd., Manchester, Eng. (Patent 1756). Importers: Macmillan Bros., Ltd., Toronto.

since. It had overshadowed his waking thoughts, had flitted across his dreams, had been present with him even during the hot battle with the three Mounties at the edge of Many Waters.

The news which "Breed Andre had brought back—that Joyce was practically alone at the trading post, scarcely two days travel away, that the trading dwindled and few Indians or metis came now, that the officer commanding at Fort Endurance was giving her no protection whatsoever—this news to Jensen was like a splash to a barrel of powder.

His deliberate brain saw danger in his scheme; but he had risked death for the furs and gold, and that hundred and fifty thousand was far less vivid, less tangible, less impassioned to him than the memory of that moment when he stood looking through Joyce's window. He had spent a year on a winner without getting back to port; a year of exile in Alaskan mountains, among prospectors. . . . There are hungers more powerful than the hunger of food or gold. . . .

It would be ridiculously easy, he imagined to knock the old coot on the head and take the defenseless girl. They would land above the station and creep up it through the bush. Two of his men would go in peacefully, as though to trade, and watch their chance to seize her. His party could swoop, strike, and have the whole thing over in ten minutes.

Knocking the ashes from his pipe, he leaned forward:

"Men, I got an idea. I just showed you lubbers our old scheme to scape. Now I'm gonna show you how we c'n make our getaway dead sure and certain. How we c'n tie the Yeller-stripes up in a sack and throw away the key. Anybody objecting? Anybody wanting to kick over the traces.

Glaring around him, he saw emphatic denials. The men were hanging upon his words; he knew they would obey him without a whimper of protest.

He went on, "We're going to make a little satchy down the Alouka to MacMillan's trading post. We're going to it tomorrow. We'll rap that old duffer on the head and take the girl. We'll throw them Yeller-stripes clear off the scent. While they're hunting for her, we'll be making tracks southeast to Manitoba. Y'mind how we saved our skins on the steamer by taking that other skirt? We'll do it again; but we'll carry this on along with us. No one'll ever know what happened to her. . . ."

For a few days after Alan Baker bought out of the service and left Fort Endurance, Inspector Haskell enjoyed more peace and security than he had felt in many months. But after the first satisfaction wore away, it gradually occurred to Haskell that maybe he ought to make some move to capture those six bandits. To let them escape without raising a hand against them would look bad, very bad, to Superintendent Williamson on his coming visit to the post.

Thinking over his situation, he remembered how Baker had demanded to lead a patrol to the Inconnu River and lie in wait there. Baker had said they would try to escape by that route. He knew what he was talking about. Haskell realized he knew.

Should he send a detail to the Inconnu?

The more Haskell pondered the idea, the more it appealed to him. It was reasonably sure to succeed. It would be the positive action he needed. On his wall map he hunted for the Inconnu. He found a small channel of the Mackenzie by that name, but

Baker's Inconnu was some large river. Perhaps the chart listed it as "The Unknown," the English translation of the name. He searched for an Inconnu and an Unknown, but found neither. Such a stream simply was not shown on his map.

When Little Otter came in to the post for a supply of chewing gum, Haskell pumped him. The sub-chief had only the haziest idea where the Inconnu was, but Indian-like he would not admit his ignorance. He started talking, gesticulating—till Haskell caught him in a flat self-contradiction and kicked him out of the cabin in angry disgust.

(To Be Continued.)

Prince Has Useful Hobby

Taught By Queen Mary Ho Knits Unusually Well

Before long somebody may be going about wearing proudly a woollen scarf that was knitted by the Prince of Wales. For the heir to the British throne knits and crochets, too, enjoys doing both and does both unusually well.

Attention was drawn to these little-known diversions by a recent episode. In a box of clothing sent from St. James's Palace to the Lambeth Depot of the Personal Service League was a hand-knitted scarf. But for a chance given by the Prince to his depot, which is on his estate, the scarf in question probably would have remained undistinguished from the rest of the garments.

Seeing the scarf on the pile, however, the Prince started his companions by casually remarking: "That is one I knitted." At once the scarf was separated from the pile. The news spread quickly and high offers were made for it.

This is not the first knitted by the Prince. When a needlework guild in which Queen Mary takes a personal interest held its annual exhibition some time ago, three scarves made by the Prince and three made by his younger brother, Prince George, two of each knitted and the other one crocheted were among the articles displayed.

The Prince of Wales, having some red wool left over, scored over his brother by adding a pair of mittens to the exhibition.

The Prince, one hears at York House, finds that an occasional half hour devoted to knitting or crocheting suggests much needed mental relaxation. By the occupation of his hands in this way he can take his mind off State business for a little while. But usually every minute of his twenty-four-hour day is mapped out to the second. The Prince was taught to knit by the Queen—whose favorite relaxation is needlework of all kinds—when he was a boy.

THE RHYMING OPTIMIST

By Allie Michaels

RESOLUTIONS

In spite of all the hosts of wrong that, threatening, pursue, I will be brave, I will be strong. I will be firm and true. Unheeding staunch swords red with rust.

That others have let fall, I will be faithful to my trust, Nor any vow recall. I will be wise; I will not grope Down dark and devious ways, I will cling close to one bright hope Through ever-changing days.

Ah, who am I to launch these boasts Like ships foredoomed to break Upon the far years' unknown coasts? What pledges dare I make? Of most myself can I resolve What I will do or be; But only as God helps me solve Each man's mystery.

A Vanished Race

No Living Eskimos in Northeast Greenland Since 1823

A vanished race has left traces of an active life on the shores of Northeast Greenland. No trace of living Eskimos in that district has been known since 1823. It is thought that some sudden tragedy must have overcome the Eskimos, because in several huts were found a number of skeletons. In one place, explorers of the Royal Geographical Society found a number of implements among the ruins, many of which were well preserved and of archaeological value. To judge from the implements, the coast seems to have been inhabited about 1400-1500.

One machine has been invented that can turn out 34 miles of wall-paper daily. Sheets of plain paper fed into the machine, often are four miles in length.

A ton of gold is worth nearly \$500,000.

ROYAL YEAST CAKE

Coffee Cake

A Real Treat!

COFFEE CAKE—equally popular for tea, luncheon or supper . . .

Cream together 1/2 c. butter and 1/2 c. sugar, add 1 well-beaten egg and 1/2 c. milk. Add this mixture with about 2 c. flour and 1/4 tsp. salt to 1 c. Royal Yeast Sponge to make a soft dough. Knead lightly and place in greased bowl. Cover and set in warm place.

***ROYAL YEAST SPONGE:**
Soak 1 Royal Yeast Cake in 1/2 pint lukewarm water for 15 min. Dissolve 1 tsp. sugar in 1/2 pint milk. Add to dissolved yeast cake. Add 1 quart bread flour. Beat thoroughly. Cover and let rise overnight to double in bulk in warm place free from draughts. Makes 5 to 6 cups of batter.

BUY MADE-IN-CANADA GOODS

BE SURE to keep a supply of Royal Yeast Cakes on hand to use when you bake at home. Sealed in air-tight waxed paper, they stay fresh for months. These famous dry yeast cakes have been the standard for over 50 years. And send for free copy of the ROYAL YEAST BAKE BOOK—gives 23 tested recipes. Address: Standard Brands Limited, Fraser Ave. & Liberty St., Toronto, Ont.

Our free booklet, "The Royal Road to Better Baking," tells how Royal Yeast Cakes will improve your cooking with just a few easy ways to use them.

Produced Queer Fruit

Half Lemon Half Orange Evidently Evolved From Grafting

A very unusual freak, half lemon and half orange, was received in a shipment of California fruit opened at the Carleton Holmes store, in Simcoe, Ontario. The "lemon-orange" has the appearance of having been grafted by some experimenting joker after the fruit had commenced to form. Divided longitudinally into two hemispheres, the orange half is 100 per cent. orange with a bright orange-colored skin, while the lemon half is just as much of a lemon with typical light yellow skin. There are the usual differences in the textures of the two, but the two halves are solidly grown together, a narrow ridge running around the fruit where the two halves are joined. The fruit grew on one stem.

The toast, "Long live our teacher," had just been drunk. A new teacher was called on to make the response. Blushing he got to his feet and said, "What on?"

The Mutual Savings Society, of Dunbar, Scotland, which was established 104 years ago, has just had its annual distribution of funds.

Little Helps For This Week

"Forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark."—Philippines 3:13, 14.

Yet I argue not Against Heaven's hand or will, nor Of heart or hope; but still bear up Right onward.—John Milton.

It is not by regretting what is irreparable that true work is to be done, but by making the best of what we have. It is not by complaining that we have not the right tools, but by using well the tools we have. What we are and where we are is God's providential arrangement—God's doing though it may be man's misleading; and the many and wise way is to look your disadvantages in the face and see what can be made out of them. He is the best general who wins the most splendid victories by the retrieval of mistakes.—F. W. Robertson.

London's newest office building contains 1,468 windows, 700 wooden and 365 steel doors, and more than 20 miles of hot and cold water pipes.

FOR ANY PAIN

Have you ever found any quicker relief than this?

Anyone can take Aspirin, for doctors have declared these tablets perfectly safe.

And there is no quicker form of relief for any pain.

It is well to remember these things when anyone tries to persuade you to try anything in place of these tablets.

Aspirin may be taken as often as there is any need of its comfort: to stop a headache, throw off a cold, drive away the pains from neuralgia, neur-

tis, rheumatism, lumbago, etc.

Whenever you take Aspirin you know you are going to get immediate results—and you know there will be no ill effects. You know what you are taking.

Why take chances on some form of relief which may not be as swift—may not be as safe? The new reduced price on bottles of 100 tablets has removed the last reason for ever experimenting with any substitute for Aspirin!

Aspirin is a trade-mark registered in Canada

THE CHINOOK ADVANCE

Published by Mrs. M. C. Nicholson every Thursday afternoon from The Advance Building, Main Street, Chinook, Alberta, and entered in the postoffice as second class mail matter.

All letters addressed to the editor for insertion in The Advance, must be signed to show bona fides of the writer. Publication in all cases is subject to the judgment of the Publisher. We do not necessarily coincide with views expressed.

The subscription rates to The Advance are \$1.50 per annum in Canada and \$2.00 outside of Canada.

The transient advertising rates in The Advance are—display, 40c per inch for first week and 30c for each succeeding week, providing no change is made. For heavy competition an extra charge is made for first week. Reading notices, 10c per count line. Legal advertising, 15c per count line for first week and 10c for each succeeding week. Cards of thanks, \$1.00.

The Advance is a member of the Canadian Weekly Newspapers Association and the Alberta Weekly Newspapers Association, and observes the prices and conditions of these organizations.

SMALL ADVERTISEMENTS
Advertisements under this heading are charged at the rate of 50c for 25 words or less per week, with 10c for each additional 5 words. Three weeks for the price of two.

Freight Adjust'mt Schedules On Grain

Rye. Schedule one, add 2 1-2c.

Flax. Schedule one, add 2 1-2c.

Farmers would do well to clip the above for reference when obtaining daily market prices over the air.

Peyton News

The card party and dance at the Peyton school turned out to be very successful. First prizes went to Mrs. A. Bjornsrud and Ernest Peterson; consolation to Mrs. R. Nicholson and Ed Davis.

Hardy Anderson and Carl Lee were week-end visitors with Mr. and Mrs. Bjornsrud.

Miss Eva McPherson spent the week-end with Miss Norma Hobson.

Mr. and Mrs. Rudy, Miss Marshall and Mr. and Mrs. N. Kjornbus were guests Sunday at the home of Mrs. U. S. Peterson.

Mr. and Mrs. Hutchison and Bruce and Mr. and Mrs. Turple and family were dinner guests at the home of Mr. and Mrs. N. Stewart on Sunday.

The Prairie Rock Club met last Thursday at the home of Mrs. J. Rasmussen. There was a small attendance on account of bad roads. The next meeting will be at Mrs. Haggerty's home next month.

Mr. and Mrs. R. H. Nicholson and Mr. and Mrs. Geo. Nicholson were supper guests Friday evening at the Bjornsrud home.

Heard Around Town

A play, "The Perplexing Situation," and program at Laughlin school on Friday, March 31st. Ladies please bring lunch. Silver collection.

The regular meeting of Chinook W. I. will be held Wednesday, April 5th, at the home of Mrs. N. Murray. Assistant hostesses will be Mesdames Marcy and Milligan. A program on "Home Economics" is being arranged by Mrs. Lee and her committee. Roll call, "Alberta - Made Products." Mrs. N. Steckle, of Youngs town, will give a demonstration on "Boning a chicken." All ladies interested are welcome.

Thompson McIntosh left last week for Calgary where he will visit for a short time with his sister and aunt before going to Olds, where he expects to spend the summer.

The Ladies' Card Club met at the home of Mrs. L. Robinson. Honors went to Mrs. Vanhook and Mrs. Butts. The Club meets next week at the home of Mrs. Petersen.

The dance at the Chinook Hotel last Friday night was greatly enjoyed by all those in attendance.

Wanted—Cash buyers for fifteen head of young horses. Fenske Brothers, Cereal, Alt.

Miss Ella Broston was the guest of her sisters, the Misses Hazel and Agnes Broston, at the Chinook Hotel on Wednesday.

Len Cooley underwent an operation for hernia at the Cereal hospital on Saturday last. Mr. Cooley is progressing favorably.

Herman Neebe is recovering nicely following his operation.

Mrs. Gillespie, of Oyen, will show Ladies' and Children's Hats at the Acadia Produce Store on Friday afternoon, April 7th.

The Young People's Society meeting on Wednesday evening took the form of a farewell party in honor of Miss Velma Kimble, who leaves to-night (Thursday) for Edmonton. They also entertained the

Lanfine Young People's Society. Miss Betty Milligan presided. The evening was spent playing games. At 10 o'clock the party sat down to the beautifully decorated tables to partake of a dainty lunch. Miss Betty Milligan, on behalf of the Society, expressed regret that Miss Kimble was leaving Chinook. Miss Velma replied appropriately. Miss Ina Anderson and Joe Culp, of Lanfine, thanked the Society for the entertainment.

Advance Bill to Permit Sweeps

(By Canadian Press in Calgary Herald.)

Ottawa, March 29—The bill authorizing the holding of hospital sweepstakes in Canada was passed by the Senate committee on private bills on Wednesday. The measure was sponsored by Senator A. D. McRae (Conservative) Vancouver.

British Air Liner Crashes in Flames

(By Associated Press in Calgary Herald.)

Brussels, Belgium, March 28.—Fifteen persons were killed today in the wreck of an Imperial Airways passenger liner near Eesen.

Eleven of the victims were English.

Rearville News

The Langford U.F.A. held another of their whist drives and

dances on March 24th. This one was in charge of Mr. L. Senecal. The prize-winners were Mrs. L. Sprieter and W. Hodge. The consolation went Mrs. M. F. Sultor and C. Hodge. The last of the series of entertainments is to be held in Rearville school on Friday, April 7th.

Mrs. T. Mason has been confined to the house with the flu.

Mr. and Mrs. M. F. Sultor visited last Sunday with Mr. and Mrs. I. Thomas.

Mrs. Osterberg visited at S. A. Wilton's on Wednesday.

Mrs. S. A. Wilton visited at A. Osterberg's last Thursday.

R. James and E. Olson, of Kennel district, visited at the Wilton home last week end.

A few from this district attended the dance at Peyton school last Friday.

Miss Duff and C. Hodge visited at the home of A. Osterberg last Sunday.
